*We just returned from our Global Conference and all I can say is Wow. What an amazing company. It seems like it never stops, The products that were introduced this year were amazing, Improving our products constantly. Coming out with mind boggling clinical that really show the Shaklee difference. They continually offer new incentives to help all of our people to move to another level. It is so wonderful to see so many people who have had their lives changed one way or another. Hearing the stories always hits the heart.*

*The new products are a combination of additions to some of the old and some completely changed. No one on the market have 35 patents and patents pending on nutritional products.*

*Go out and make a difference in peoples lives and share these with your friends and family.*

*I am asking for your help this month. I am looking **Moms that would like to be at home to raise their own children** and still be able to make an income and at the same time making a difference for others.*

*So my question is whose life would you like to make a lasting effect on by sharing. I will be happy to help you share the story with them. Just give me a call. Nina*

 Closed Tue, Thurs, Sat and Sun**

**How to order your products:**  
 Call our office—920-452-2600. We will process your order the same day. call us for help

### **Yeast Infections Gone!**

I'm rather excited to tell you about a success I've experienced that I can only attribute to the Pre & Probiotic! I've been struggling with chronic yeast infections for well over a year. Just last Monday I was back to the Dr to make sure, again, that it was yeast & make sure, again, that I was doing everything right in the treatment. I was told, again, that it was hormone related & just keep treating it each month & it would resolve once my son stops nursing. However, with this super busy week I never made it to pick up my medicine. In fact I totally forgot about it until today because I'm suddenly completely free from symptoms! Nothing else has changed except the addition of the pre/Probiotics a couple of weeks ago. I will so gladly trade the monthly trip to Walgreens for my "treatment" for my new favorite supplement - & it's about the same price! And, after only two weeks?? Imagine what will be different in two months!

I hope you don't think this is too much of a personal issue to share with you! (and probably Don, now that I think about it) It's just very encouraging for me to see the quick, dramatic results where 15+ months of allopathic treatment has failed & I had limited faith in other options. That has changed ;) Best to you, Tama

the necessary nutrition to do what bodies are intended to do-conceive and grow a healthy baby. I had a terrific pregnancy, no nausea or complications. Kellen, now 3 1/2, is the healthiest, happiest boy I know. Both children use Shaklee nutrition and have never needed medication or antibiotics. The average child goes to the doctor 15 times a year! Shaklee keeps my children healthy and "drug free." I believe the years of heartache and medical procedures could have been avoided with the simple, easy addition of Shaklee to our diets and our lives.

-B. Leschke

*Shirley Fike, RN, has recommended the following for a young couple who desires to conceive: At each meal, each should take 1 Tbsp. Protein, and 1-2 tabs of each of the following: Vita-Lea; Vita E, Vita C, Zinc. She says it has never failed in 23 years!*

### **Doctor Endorses MindWorks Instead of Medication**

In 2006, budding artist, Matthew Kurz was blinded by the sun while driving to school and rear-ended a

school bus. This accident would forever change his life. Matthew, suffered a traumatic brain injury. Following the accident, he was unable to walk, talk or create art. In spite of a lengthy time spent in a coma and an ongoing recovery time, his mother, a Shaklee Distributor, has continued to provide him with abundant supplements and Shaklee proteins. At present, Matthew writes in cursive, walks some, talks softly and jokes with others, rides a horse name Frito for therapy and attends an art class at State Fair Community College, In his mother's own words, she says: "Matthew is doing beyond great... 2 weeks ago he walked 2 steps with no cane or help, Two months ago his Dr. said to only use Shaklee MindWorks, his short term memory showed a greater improvement than the medical prescription he was using. Amazing!"

### **Peaches & Cream Smoothie**

2 scoops Shaklee 180 Energizing Smoothie Mix Vanilla  
8 oz nonfat milk or low-fat soy milk  
1/2 cup chopped frozen or fresh peaches  
Ice and blend until creamy  
ENJOY!

### **Infertility**

Six months after our wedding Scott and I decided to start our family. What was expected to be a simple goal became our most difficult life challenge. The next seven years were filled with tests, procedures, surgeries and disappointment. Finally we

were blessed with a pregnancy using in vitro fertilization. Miranda changed our lives dramatically. We BOTH began supplementing with Shaklee's Vita-Lea, B-Complex, Vita-C, Vita-E, Zinc and Energizing Protein. We also made a few dietary changes: no dairy, organic when possible and hormone-free meat. When Miranda was 21 months old I learned I was pregnant again.

Oh Happy Day!

This pregnancy only required feeding our bodies

### **Forgot My Asthma Medicine!**

I am LOVING the Shaklee products I got! There are so many things I have been impressed with, but I have to tell you what I think is probably the best...

I spent all day yesterday cleaning and trying the products out on everything in my home. Towards the end of the day I realized that I had forgotten to take my asthma medicine that morning. I couldn't believe I had spent so much time cleaning (and being active while doing it) and had not noticed that I didn't take my medicine.

When I started to finish up, I was looking around for the best place to store all my new cleaning products and out of instinct I looked under the sink to see if there was room. As soon as I opened the doors I started coughing and all my asthma symptoms came right back. I couldn't believe that just the smell of the cleaners we have under the sink could have such an impact on my lungs!  
-Kristen

### **Vivix Recovery Testimony**

Hi, my name is Lori Bray-Levinsohn, In the beginning of April 2015, I ended up having a herniated disk in my lower back. I went to the chiropractor weekly. I could barely move and was in a lot of pain. After about 4 weeks it started to feel better and I could almost touch my toes, which

was a huge accomplishment. Then in the 5th week, while at the dog park I tripped over a tree stub and with my balance being off from my sore back, I fell flat on my face and messed up not only my back again, but my wrist as well...back to the chiropractor the very next morning and continued weekly for the next 7 weeks. I was so sick of not being able to walk, move and forget about bending over and my right wrist was in horrible pain also.. in that 5<sup>th</sup> week after falling and 10<sup>th</sup> week after my initial back problems, I was still in so much pain and had limited mobility, my chiropractor even wanted me to see a hand/wrist specialist for my wrist. I needed to do something. I had been reading different testimonials about Shaklee products and kept coming across back pain and problems and taking Vivix had helped

these people. I had nothing to lose and everything to gain. So in that 6<sup>th</sup> /11<sup>th</sup> week I started taking Vivix. By the 12<sup>th</sup> week after one week on Vivix, my back was feeling better. I even gave my chiropractor information about Vivix and that was the only thing I had been doing different. The following week, week 13 of my whole ordeal, I cancelled my chiropractic appointment, my back and wrist felt that good.... The following week, I called my chiropractor and spoke to her nurse saying my back felt awesome, she suggested putting off my appointment for another week...so I did...after 3 weeks on Vivix, I have no more back or wrist pain. I can touch my toes, had a fantastic and busy 4<sup>th</sup> of July weekend and even did some paddle boating and paddle boarding with my 7 year old son, which I could never have done 5 weeks ago....Thank you Vivix for giving me my life back.

Lori - 51 years young

### **NO More Hot Flashes!**

I can't "begin" to say what an amazing, positive difference that Shaklee's Menopause Balance Complex has made in my life! I used to have hot flashes, in which I'd feel very flushed, wake up all through the night, and feel as if my hormones were out of balance. Menopause balance came very highly recommended from a Post-Partum nurse, and now I'm like her—I won't go a day without it! I no longer have hot flashes, and feel like a new person.

A Big "Thank You" to my nurse associate and the folks at Shaklee... my family thanks you too!

- P. Johnson, RN

## Health Benefits of Stevia

A sweetener with medicinal properties that include:

- possible positive effect on triglycerides, cholesterol and obesity
- anti-inflammatory effect
- may help diarrhea
- negligible effect on blood glucose (i.e. safe for diabetics)
- used in South America to actually treat diabetes
- may lower blood pressure
- may treat heartburn
- may improve skin rashes like eczema and eliminate dandruff

**Stevia is a zero-calorie sweetener** and does not increase your cravings for sweet things, unlike most other sweeteners. Whole stevia leaves are 30 to 40 times sweeter than sugar, and the extract of stevia leaves is 300 times sweeter than sugar.

### Product Highlight ~ Glucose Regulation Complex/ Craving Reduction Complex~

**Why Take It ~** Retaining normal blood sugar levels is an important part of controlling long-term health. An estimated one in four Americans, or 70 million people, could benefit from dietary support to help the body make efficient use of the insulin it already produces. Shaklee Glucose Regulation Complex provides natural support for normal glucose metabolism. It helps to transport glucose into cells, making your system more efficient and effective at utilizing blood

sugar, and helping to retain normal blood sugar levels.

This product is not suggested for people with type one diabetes or those with glucose levels which stay between 40-50 mg throughout the day.

#### **What Issues Can It Help With ~**

Loss of cravings, weight loss, more energy, prevents blood sugar crashes, helps regulate normal glucose levels, provides antioxidant protection, poor sleep patterns, intermittent fuzzy thinking, and helps prevent

diabetes.
