

# Contents

---

Contents .....	3
Introduction .....	7
A Simple Motivational Example .....	8
Hypothesis Tests .....	8
Overview of the Monte-Carlo Permutation Test .....	10
The Impact of Serial Correlation .....	13
Overview of the Bootstrap .....	14
Applications in Trading System Development .....	19
Core Algorithms .....	23
Basic Permutation .....	24
Permuting a Single Price Series .....	26
Permuting Bars .....	31
Permuting Intraday Data .....	37
What About Night Sessions? .....	40
Permutation Test Applications .....	41
Early-Stage Testing for Overfitting .....	42
A Practical Example .....	49
Testing a Fully Developed System .....	54
Example Code and a Demonstration .....	57
Testing a Trading System Factory .....	61
What is a Trading System Factory? .....	63
Permutation Considerations .....	65
A Demonstration Program .....	66
The Demonstration Program In Action .....	71
Evaluating Indicators .....	72
Measuring Future Market Movement .....	73
Measuring Predictive Power .....	75
Permutation Test for Selection Bias .....	76
A Program to Perform the Permutation Test .....	80
Code For the Permutation Test .....	81
Optimizing the Threshold .....	84
An Example Application .....	88

---

Controlling the Familywise Error Rate . . . . .	90
Demonstrating the Stepwise Algorithm. . . . .	97
Accelerating the Stepwise Algorithm. . . . .	98
Code For the Fast Stepwise Algorithm. . . . .	100
Bootstrapping Trading Systems. . . . .	103
The Bias-Corrected-Accelerated Bootstrap . . . . .	105
Computing the Bias Correction . . . . .	106
Computing the Acceleration . . . . .	106
Computing the Lower and Upper Bounds . . . . .	107
A Program For Bounding the Mean. . . . .	108
Code For the BCa Algorithm . . . . .	111
The Program In Action . . . . .	114
Probability of Significant Drawdowns . . . . .	115
Defining Drawdown . . . . .	115
Code for Drawdown . . . . .	117
Drawdown Percentiles as Parameters . . . . .	118
The BOOTDD Program for Bounding Drawdowns . . . . .	123
Demonstrating the BOOTDD Program . . . . .	125
Confirming Superiority. . . . .	129
Overview of the Algorithm . . . . .	132
Optimal Trading Thresholds. . . . .	137
Case Study: Optimal Smoothing Lookbacks. . . . .	138
The PRICE INTENSITY Indicator . . . . .	139
Implementing the Superiority Algorithm . . . . .	141
Demonstrating the SUP1 Program . . . . .	147
Case Study: Indicator Performance Across Markets. . . . .	148
Implementing the Superiority Algorithm . . . . .	149
Demonstrating the SUP2 Program . . . . .	155
Case Study: Optimal Holding Period . . . . .	157
Thoughts on Holding Period Analysis. . . . .	158
Caveats . . . . .	160
Implementing the Superiority Algorithm . . . . .	163
Demonstrating the SUP3 Program . . . . .	169
