#SAAM IS HERE

Sexual violence is a major worldwide public health, human rights, and social justice issue. We need everyone's help to end it and it is 100% preventable! This is a time to raise public awareness about sexual violence and to educate communities on how to prevent it. Today, we encourage you to confront your own network and show your community where you stand by [adding a filter to your profile picture](#) for the month. Learn more about SAAM at nsvrc.org/saam

DENIM DAY

We are proud to support our [2017 Youth Leadership Corps](#) students as they facilitate a [Denim Day Awareness Campaign](#) at 4 area high schools during lunchtime. The campaign stems from a rape conviction that was overturned 18 years ago in an Italian court room when justices felt that the survivor's jeans were too tight and thus must have given consent through helping the perpetrator remove her jeans. The following day, women in the Italian Parliament wore jeans in solidarity. Each year, Denim Day is a symbol of protest against erroneous and destructive attitudes about sexual assault. We are grateful to Dracut High School, Lowell Middlesex Academy Charter School, Lowell High School, and Greater Lowell Technical High School for their support as the high schools take on this learning and leading effort coupled with social justice and organizing.

JDI PREVENTION SUMMIT

April 27

CHH Prevention Staff, Caitlin LeMay and Advisory Board Member, Nick Pelonia will present at the workshop entitled “Bringing a Broader Community Perspective to Sexual Assault and Domestic Violence Prevention: Community Mobilizing Through Buzz for Safety®” at the Jane Doe, Inc. Prevention Summit on April 27th in Worcester, MA. Their presentation focuses on the Buzz for Safety® initiative that CHH launched in Lowell last Spring, where barbers received training and workshops around sexual violence, healthy masculinity, and how to speak to other men about preventing sexual violence. JDI is the statewide coalition for domestic violence and sexual violence providers and each year the Prevention Summit offers preventionists and practitioners a chance to explore the intersections between gender-based violence, prevention strategies, and social justice responses.
