

Re-Certification

If your Recertification certificate(s) are due for renewal, you may have already been notified by ASQ about your deadline for submittal. If you have not received any notification, you should contact ASQ Headquarters.

There has been a price change for recertification at ASQ. Be sure to use an updated application/journal below and be aware of the current pricing. Sending in the incorrect amount will delay your recertification.

In order to speed up your recertification approval, please do not send recertification forms to ASQ Headquarters; please send the following to your Section Recertification Chair:

- Provide an original signed and completed application form with payment.
- Provide copies of proof of participation for all activities (objective evidence should be no surprise to quality professionals!)
- Include in with your completed packet a stamped, unaddressed (4.5 x 9") envelope.
- Mail items above using First Class US Mail to:

Charles Muzzey
36 Belmont Drive
Merrimack, NH 03054-2652
603-223-2189 - Work

All acceptable applications will be forwarded to ASQ Headquarters. Your copy of the journal is maintained for approximately 12 months. You should keep your originals for a minimum of one (1) year after submittal. All unacceptable packets will be returned to you. For assistance with ASQ Recertification, contact me at the phone number above.
