

IT'S OUR RIVERSIDE

The illustration depicts a vibrant riverside scene. In the foreground, a blue river flows with a white swan and a small boat. A green bridge with a purple silhouette of a person stands in the middle ground. The background features stylized buildings and a blue sky with a yellow cloud. Vertical green leaf patterns are on the left and right sides.

#ITSOURRIVERSIDE

The Riverside Action Group is a non-aligned group of concerned residents of Twickenham whose goal is to see the best possible solution for the future of Twickenham's important riverside.

Our Riverside is a crucial local asset that could be used to provide a hub for the local community. The current proposal for development of the Riverside ignores local residents' calls for a town square and a view to the river from King Street, and has been overwhelmingly rejected in a consultation.

We believe that the tax-paying residents should have a genuine say in the future of Twickenham Riverside. The Council should listen to our concerns and re-open the consultation, to allow a development of this important local space that can be a lasting legacy for the people of the area.

What we can do:

Write to MPs and heritage organisations;

Write to our councillors, making it clear that we object to the existing design and demanding that the consultation be re-opened, copying to the lead on planning: cllr.pfleming@richmond.gov.uk;

Sign the petition;

Download campaign materials and display posters, and distribute copies of this flier;

Visit www.riversideactiongroup.uk to find out more.
