DESCRIPTION: This is a rare old reconditioned Bear Grizzly static recurve. Maple riser. Bow has no delamination; limbs are straight. Overlays and tips are in good condition. The top tip overlay has been reconditioned. No drilled holes; No chips or dings. No crazing. A few short stress lines in the limbs. Bear Logo decal is a replica. The old leather grip was replaced with a new buckskin one, and two wood shelf rests installed to make it RH/LH. I recently shot this bow, and was amazed at how accurate it was for a 1952 static recurve. Shoots as well as any modern recurve. If you're a fan of these old Bear bows, this is a good one. The bow was also put to a stress test (held at full draw for 16 hours to make sure the old glues still held and no stress cracks developed. Comes with a new string.
