Dear Brian and Joey,

I just wanted to take this opportunity to thank you for bringing one of our top performances to THE FORUM during our 2014 Season. In fact, you drew our largest audience this summer. Over the past years, our patrons have time and time again asked for a return performance and you certainly did not disappoint us this year. "The Killer B's-- Back to Barry, Billy and The Beatles" was fabulous! Your outstanding showmanship alone definitely sets the tone of your show and the audience feels the exuberance, as well. All of your musicians and vocalists were superb and one could certainly realize that by the thunderous applause of our patrons. This particular music was an era that many of our people recall from their more youthful days and the show was well-designed to highlight each one of the artists' music. Yes, we will certainly have you return to THE FORUM and look forward to some of your new musical collaborations.

A huge thanks to you, Brian, and to Joey for contributing to our Season's success!!

Regards,

Joan Rhyne
Vice President
THE FORUM
