

BRIDGING THE GAP

FOR THE VETERANS OF AMERICA

***VETERANS QUALITY OF LIFE ACCESS
NETWORK, INC.***

BUSINESS PLAN

"LEADING BY EXAMPLE"

Servicing the Veteran Communities Since 1999

EXECUTIVE SUMMARY

Veterans Quality of Life Access Network, Inc, also known as “VQLAN” is a not for profit 501(c)(3) tax exempt organization incorporated in February of 1999 under the provision of New York State to specialize in providing benefits and community services to veterans and low to moderate income individuals and families.

The Organization enables veterans to get information on how to apply for their basic needs such as V.A. Compensation and Pension Claims in addition to receiving access to all V.A. Forms and Applications for processing. We provide invaluable assistance through our resources and networking to help veterans and others in the community to obtain Welfare, Food Stamps, Social Security, Housing, Jobs and Schools to name a few. All of our above services are free of charge.

VQLAN was founded by Mr. Barry G. Campbell who is the recipient of three (3) Purple Heart Citations and Proclamations from the U.S. House of Representatives as well as many other Congressional Honors for his indelible commitment to veterans in need. He was actively employed at the Veterans Administration for 30 years in Compensation and Pension upon retirement.

I. Objectives

1. To Support all Veterans Causes and Needs
2. Ensure every Veteran receives the Benefits and Services due
3. Expand our Network Nationwide
4. Secure sufficient Funding for the Organization

II. Mission

For the past 15 years our organizations mission is to be a proponent for all Universal American Veterans in helping to improve their quality of life by providing “access solutions” as well as give them other amenable options to secure such as:

- a. Compensation, Death & Other Veteran Benefits
- b. Extensive Counseling
- c. Correction or Obtainment of Military Records
- d. Upgrade of Discharge
- e. Duty to Assist Letters
- f. Dependent Forms
- g. Agent Orange
- h. Hardship Waivers

The aforementioned listed are just some of the primary services veterans seek and need, which we provide for them expeditiously. The health and mental stability of the Veteran are extremely fragile given the conditions they have been exposed to. Our obligation as an organization as well as veterans ourselves is to alleviate the compounding red tape, which inhibits most veterans from securing the benefits and services they have earned during their time spent in the military.
