SUBJECT: Safety Memo – “Winter Driving Tips”

Severe weather can be both frightening and dangerous for automobile travel. Motorists should know the safety rules for dealing with winter road emergencies.

\*Avoid driving while you're fatigued. Getting the proper amount of rest before taking on winter weather tasks reduces driving risks.

\*Never warm up a vehicle in an enclosed area, such as a garage.

\*Make certain your tires are properly inflated.

\*Never mix radial tires with other tire types.

\*Keep your gas tank at least half full to avoid gas line freeze-up.

\*If possible, avoid using your parking brake in cold, rainy and snowy weather.

\*Do not use cruise control when driving on any slippery surface (wet, ice, sand).

\*Always look and steer where you want to go.

\*Use your seat belt every time you get into your vehicle.
