

Why Savoie?

We are a small, family owned and operated certified organic farm.

Because we are small, we limit the size of our CSA to just 70 members. This allows us to get to know our customers individually.

Barry, Carol or one of our volunteers will personally answer your questions and share our own tips for preparing and preserving your vegetables. Our CSA provides you with the freedom to choose what **you** like; baskets are *not* pre-filled for you. In addition to your share, we also offer items for sale each week, such as potted herbs, our own farm-fresh duck and chicken eggs, larger quantities of vegetables such as tomatoes for canning or 5 lb bags of potatoes, and certain vegetables that may just be coming into season.

Why join a CSA program?

Community supported agriculture (CSA) programs provide communities with fresh, locally grown produce. CSA programs are ideal for people who enjoy eating what's in season and who are willing to try new vegetables they may have never seen before. Your weekly CSA share becomes a diverse, culinary adventure, but isn't that what you are looking for? It's a wonderful alternative to the limited selection that grocery stores provide. All vegetables have been harvested at their peak of freshness and nutritional value!

Savoie Organic Farm CSA program

**Local, certified
organic vegetables**

Serving Williamstown
and the surrounding area
since 2011

Local, organic produce harvested fresh for you!

At Savoie Organic Farm, we regard our CSA members as shareholders in the farm. Members can choose among three different share (basket) sizes depending on their weekly vegetable needs: small (1/4 bushel), medium (1/2 bushel) or large (full bushel). We provide you with the basket at the beginning of the season. You fill your basket each week with **your choice** of vegetables from the harvest. Our CSA provides you with the freedom to choose what **you** like; baskets are *not* pre-filled for you. There are limits posted for most items to ensure that everyone in the CSA program gets the opportunity to try each item.

This year's 10-week summer program will begin June 9th and end Aug 11th. Our 6-week fall program will begin Sept 15th and end Oct 20th. Pick ups will occur on Tuesdays with your choice of two time slots. For more details, please download our 2015 Summer and Fall CSA contracts from our website. Sign up for one or both CSA programs; it's up

to you! Fall sign-ups will also be accepted later in the season, although spaces will sell out by mid-summer. All slots are filled on a first-come, first-served basis.

Things to consider before joining a CSA:

As a shareholder, you will share in the bounty of our harvest throughout the season as well as some of the risk associated with farming. This includes crop losses due to weather catastrophes or other unforeseen circumstances. In the event of such an occurrence, those of us at Savoie Organic Farm will make every effort to overcome the loss. However, the shareholder agrees to share in this risk and will not expect monetary reimbursement.

Q&A

How much do the shares cost?

Summer (10wk)/Fall (6wk) program:

Small: \$195/\$117

Medium: \$290/\$174

Large: \$485/\$291

Do you ever set limits?

Yes. Limits are set for most items to ensure that everyone can try each item, regardless of when they pick up their share. Of course, the most important limit is the size of basket that you purchase: all items must fit inside the basket, level with the rim.

When can I pick up my share?

Tuesdays at the farm; no exceptions. Choose one of two time slots: 2:30 to 4:30 pm or 4:30 to 6:30 pm.

How do I sign up for the Savoie Organic Farm CSA?

Download our CSA contract from our website:
www.savoieorganicfarm.com.

Mail the registration form with your check or money order payable to Savoie Organic Farm to the address provided. Questions? Please call Carol or Barry at 856-629-9020.
