College Students for the Entire Earth/World

203. No testing of college students in all States/countries. All student's complete quizzes after each topic. All students must be given opportunities to make up missed quizzes and low score quizzes, so they understand the work. The languages on the quizzes must be simple to understand and not tricky. The languages must not be ambiguous. The languages must not have semantics in them.

204. The US federal government and others have been destroying my life before birth. They have continued to do this at birth and do many wicked things continuously at intervals. They have destroyed my jobs. They have used bombs to destroy my job and property several times with the intent to kill me in it. They destroyed the workers at my last job and infect many of them with the sextile devals and caused some to lose their jobs, be in the newspapers, and on video exposing themselves. They killed me many times and tore me up on the last job, they killed my other versions so they cannot do their work, they destroyed me on the last job as well, and caused me to be permanently sick. They continued to destroy me and they killed me and my other versions, raped me, sodomized me, starved me, put me in physical danger for days, and damaged me more permanently on January 1 to 4, 2017 at the Miami International airport and during the abduction. US Federal government, the State, are responsible for reimbursing me in all ways financially and in other ways that I want. They must give me everything that I want and nothing less.
