

←- LOG IN BOOK IS NOW ON THE FRONT OF THE TARGET SHED, please remember to log in and out.

- Targets are found in the target shed along with cardboard. Please attach cardboard to the wood target stands first and then attach your paper targets on the cardboard BETWEEN the wooden cross pieces of the target stand so that the wood does not get shot up. Also, please remember to take your paper targets and cardboard down when you are through shooting. The cardboard can be used again.
- All other targets found in the target shed (metal and ceramic) should be returned to the shed when you are through.
- Please remember to be thoughtful of the other members and pick up after yourself and if you find anything broken, missing or short on quantity, contact any Board member.
