

Hello Imagine,

Happy Summer! We hope you're spending quality time with your friends and families. Today, we are rolling out our ISLOL Summer Slump program! We're so excited to share this collection of interactive Math and ELA activities with you. **Studies and statistics have shown that elementary and middle school students lose a significant amount of what they've absorbed during the school year over the summer (National Summer Learning Association).** It's our goal to help remedy that "summer slump" with some engaging summer activities. Grab a device and come join us!

How To Join:

To login to Google Classroom, you must first login to google.com with your Imagine email and password. Do not try to log into Google Classroom until you are logged in with your Imagine email - it won't work otherwise!

Imagine Email: firstname.lastname@imaginelandolakes.org

Imagine Password: initials and lunch number (initials are capital letters, no spaces)

If you are having trouble logging in, please email BreAnne.Kilmer@imagineschools.org.

Join our Google Classroom - "Imagine Cafe - Brain Food for Summer" - by entering the code **mhm1k2** or clicking this direct link:

<https://classroom.google.com/u/0/w/MzE4MjMzlyNTda/t/all>

Once you have joined the class, you will see both Math and ELA assignments for all returning grades, 1-8. **All assignments are in ONE Google Classroom - students need to click on "Classwork" (top center of page) and then choose their grade level on the left hand side.**

Your student is selecting the grade level they will be **ENTERING for the 2019-2020** school year. For example, if your student just graduated 5th grade, they will be selecting Grade 6 Math and Grade 6 ELA.

We are encouraging ALL students to work on this over the summer, with MONDAY, August 26th, 2019 as the official due date. This will give everyone a couple of weeks once school begins.

These assignments have some FUN built in, but also serious learning and standards-based questions. Some assignments also revolve around a theme of positive student character. Feel free to join in with your student, and make this a family learning experience this summer!

Happy Learning!

Aimee M. Williams, Principal

Kellie Curran - Incoming 7-8 Math

Pam Ahlf - Incoming 4-6 Math

JoAnn Slay - Incoming 1-3 Math

Kelley Johnson - All ELA
