

Wyoming Pupil Transportation Association

Presents:

2018 Mechanics' Workshop

June 11 and 12, 2018
Casper, Wyoming

Sharron D. Nichols Auditorium Casper College

(Morning refreshments and lunch will be provided)

This workshop offers a common sense and advance approach to the inspection and maintenance of mechanical systems and will focus on troubleshooting problems. Participants who attend this workshop will satisfy the formal training requirement of the Wyoming Department of Education. This two day workshop will also include a roundtable discussion focusing on issues related to maintaining equipment.

Who Should Attend: Wyoming School District Lead mechanics and professionals who are responsible for repair and maintenance of pupil transportation Please register at www.wpta.net or questions please call Syd Webb 307-253-5283
