

**ACCREDITATION
CANADA**

Qmentum International™ Accreditation

Your patients want to know they are receiving safe, high-quality care from a provider they can trust. Through our evidence-based Qmentum International™ program, Accreditation Canada will help you improve and maintain the quality, safety and efficiency of your services. An Accreditation Canada award shows that you are dedicated to ensuring continued quality services to the community you serve.

A unique program with exceptional value

- World-class standards, developed by Health Standards Organization, creates a seamlessly integrated program
- A program based on 60+ years of Canadian health care expertise
- A collaborative peer review process in which surveyors share their knowledge and provide valuable coaching and support
- 3 levels of recognition – building on your success to help you achieve the highest possible recognition of quality
- Dedicated support from experienced health care professionals

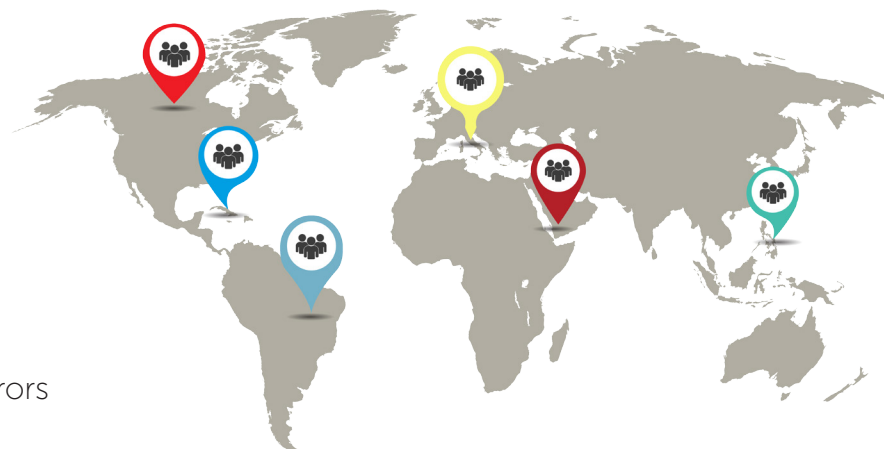

Invest in quality

- Mitigate risks and reduce the high cost of errors
- Implement proven best practices that will streamline care and improve efficiency
- Demonstrate accountability and credibility to clients, staff, stakeholders, governments and peers
- Compliments national/local regulation and licensing requirements
