1991 Card Set

The top section of players listed for each team are those players who played the most at each position of any other players on the team. These players are listed in a suggested batting lineup order.

The next section of names on each team are the starting pitchers listed by batters faced (descending order).

The next section are relievers. Usually the "closer" is listed first and then other relievers by batters faced (descending order).

The next section may or may not exist depending on if the team has several pitchers. This section is in alphabetical order and the pitchers are label (S)tarter, (R)eliever or (B)oth.

The last section of player names is made up of position players. It is also in alphabetical order.

At times you may notice that the same player is included with more than one team. Each player is carded for each team played for during the season. And, the player is rated based, of course, on the stats accumulated while playing for the team for which the card is created only.
