

# **MaKe music art dance drama**

Our aim is to enrich the lives of young people through developing their social and theatrical skills. We aim to provide professional standard performing arts activities which foster team work, build confidence and encourage exploration.

We believe it is important to: a) challenge students to think laterally and imaginatively, b) encourage interaction with other students, promoting teamwork through activities such as improvisation, scriptwriting and ensemble performance c) encourage the extension of young people's performance and presentation abilities which will give them an advantage throughout their lives.

We aim to teach: expression, vocal projection and eye contact, confidence in speaking to an audience, techniques of writing and performance of scripts, the ability to perform individually and in groups, the ability to act and react to another performer on stage, different styles of performance such as mask, mime and creative movement.
