If you are scholarship eligible, you will fall somewhere on the chart below. If you are above the highest income level you will not be eligible for a scholarship and must pay the full amount of the Program fee. If your household income is below the lowest amount, please indicate that right below the household size.

Please complete the Scholarship Request Form which will be kept confidential. Please use the chart below to find the number of people in your household, and then under the column of your household size, circle your household income. You will fall in between two income levels; circle the higher of the two income levels. For example, if there are 3 people in your family and you make \$20,000, you would circle 3 in household size, then under that column, you would circle \$21,056.50 in row Level 2. If your income was \$18,500 with 2 people in your household, you would circle \$21,855.00 in Level 4. The amount entered at a level is the highest you can make to fall into that level.
