

**2017 EDITION**

**A History of Football Statistics  
(Team & Individual)**

**for MINNEAPOLIS HIGH SCHOOL**

Accumulated by Dale Leech

Published on the website:

**“Minneapolis Kansas Sports Hall of Fame”**

FOREWARD BY DALE LEECH

Enclosed please find the 2017 Edition of a History of Football Statistics (Team & Individual) for Minneapolis High School. College/University and Professional Teams Sports Information Directors would call this type of publication a “Press Guide”. I started this in the early 2000’s as an cumulative effort to provide information for “talking points” during video / audio broadcasts of Minneapolis High School Football games for which I have participated in for 17 seasons. In other words, this was initially an effort to satisfy such questions such as “how did what we just see compare to what has occurred in the past”?

There is no claim that this document is an exhaustive compilation of statistics, but it probably is the most extensive available for the football program at Minneapolis High School. Data included has been gleaned from Minneapolis newspapers (*MESSENGER & BETTER WAY*), the *SALINA JOURNAL*, other area newspapers, School Annuals and publications, statistics provided by team coaches, and some by video evidence in local broadcasts. It in no way is touted to be an infallible document, but a statement of what I believe is the best information available based on what has been published and seen by this researcher. Many times I have thought of publishing this information for the enjoyment of others, but experience has taught me that the printing and reproduction costs for such an effort on a small scale, are almost prohibitive. Thus a publication through a website became an attractive idea.

The author’s intent on releasing this information to the public via the website – “Minneapolis Kansas Sports Hall of Fame” is to share it for the enjoyment of MHS sports fans and current and former team athletes, of which I am one. Memories sometimes fade, but published statistics don’t. However these statistics are sometimes lost in archives or become overlooked. This publication is an intent to help keep fresh those memories and help those statistics remain known and relevant for those who care.

My intent is to update this document annually to include new team/individual performance data and the additions from further research. If anyone has information of interest that could possibly be added to this total document, please contact me by FaceBook or at my personal e-mail – [dleech@eaglecom.net](mailto:dleech@eaglecom.net)

My apologies to those who read this document who are trained historians. I don’t reference historical sources in this document other than what you see above. I determined that this effort alone would be too extensive. I do have the sources referenced in my files should someone care to question the validity of any information presented here-in.

A last thought. The statistics shown here-in show the “the best of times” and the “worst of times” and many points in between. Some teams have been blessed with more skilled athletes than others, larger squad numbers than others, perhaps better coaches than others, and sometimes just better luck than others, especially in the injury department. Nonetheless, the efforts of all student athletes who currently participate or those who have in the past participated are deeply appreciated. We thank you for your dedication and effort at Minneapolis High School.

**TABLE OF CONTENTS for the 2017 EDITION of MHS Football Statistics**

I.	Series History vs. Opponents with TOC .....	Pages 3 – 11
II.	Seasons History (1900 – 2016) .....	Pages 12 – 35

## MINNEAPOLIS HIGH SCHOOL FOOTBALL - HISTORY OF KSHSAA DISTRICTS PLAY

KSHSAA began a State Playoff system for Football in 1969. From 1969 - 1981, qualifiers for the bracket in each Classification were chosen by the KSHSAA based on the best Regular Season records available in each Class..

Effective 1981 a system was began to determine the Playoffs qualifiers for each Class. These qualifiers were to be determined on the field of play through the last games of each regular season in what were called Districts. The Champion of each District would be seeded in a playoff bracket for that season. Ties for District Championships were broken by a system of points scored by each squad in District play.

Effective 2003 this District system was altered to advance the top two teams from each District to the Playoffs, both the Champion and the Runner-up. The Runner-up of one District would play the Champion of another nearby District in the first round of the Playoffs and vice-versa.

These pages show the results/history of Minneapolis High School Football in Districts play since 1981. A history of Minneapolis High School Football in the State Playoffs can be found on another page.
