

70TH GENERATION BLOOD MOON

The purpose of this illustration is to show the celestial configuration for the Central Blood Moon on July 27, 2018. This particular Blood Moon is called a Bull's Eye eclipse because the moon passes nearly through the center of the Earth's shadow parameters. A timeline will show the Triad or the 3 Blood Moon eclipses for the year 2018 along with the solar eclipses. The major Feasts of YHVH will be noted on the timeline for possible prophetic context. What is interesting is that in the whole time span of 2018, there are no total solar eclipses. Moreover there will be precisely 4 partial solar eclipse. These are synchronized to the Blood Moons and symmetrical after the 1st Blood Moon to start on January 31, 2018 and the last one just before the end of the 3rd Blood Moon on January 20, 2019. The Central Blood Moon is flanked by 2 of the partial solar eclipse, one before and one after less than a month from the Blood Moon. What is unique about this eclipse is that it is and end to the 'bookmark' to the June 15, 2011 Bull's Eye Blood Moon. The span since then has been just over 7 years. Is this timeframe signaling the possible duration of the coming Tribulation period? Many that have observed this unique Blood Moon eclipse realize that it is the 2nd and center eclipse of 3 Blood Moon eclipse in 2018, thus a Triad. This Triad is the next major celestial configuration aside from the 2014-15 Tetrad that concluded in September 28, 2015. If there is any Biblical prophetic nuance to be revealed, that is to be still determined. Others are focusing on the Revelation Virgo sign that occurs in September of 2017.

50 WEEKS PERIOD (Pentecost)
356d 11m 22d

The Feasts of YHVH are in approximate phi ratio from beginning of Passover to start of Sukkot. In 2018, the 70th and 50th anniversary are also corresponding to the phi ratio delineation centered on Pentecost.

70 Year Old 'Fig Tree'

1948-2018
70 AD + 1948 = 2018

What is also unique about the Bull's Eye Central Blood Moon is that it will occur in the constellation of Capricorn near the throat area. As many celestial researchers attest to, a Blood Moon is an bad omen for Israel. If this is the case, then this time could see a profound beginning of a 'slaughter' as the Blood Moon near the throat of Capricorn, the Goat would see as its throat being slit and bleeding out like a slaughter of a sacrifice upon an altar. Could this time thus correlate to the time the AntiChrist that may very well be on the scene at that time issue to have the Temple sacrifices halted and begins the wholesale slaughter of the Jews and Christian's that come to commitment to Jesus after the Rapture?

ISRAEL
The
'Fig Tree'
HAS MATURED

If one subtracts 1260 days or 42 months of 30 day each, the date results in February 14, 2015. This is Valentine's Day and obviously the Tribulation did not start then. What is significant is that 2018 will see the limit of the Fig Tree prophecy either come to fruition or not. This theory is predicated on the notion that the 'birth' of Israel in 1948 was and is indeed the prophetic fulfillment of Israel coming back to live as the Fig tree. If this is the case, then a generation of 70 years would mark 2018 as the completion of such a countdown if 70 years is used.
