

February 1, 2017

To All M&G DuraVent Customers:

M&G DuraVent is announcing a 5% price increase effective May 1, 2017. There have been numerous metal increases put in by our suppliers for 2017 and a price increase is necessary at this time to adjust for these costs. This increase applies to the following product categories:

DuraTech®	DuraPlus®
DuraPlus HTC®	DuraChimney® II
DVL® & DuraBlack®	PelletVent Pro®
DuraLiner®	Ventinox®
DirectVent Pro®	DuraFlex® SS (304, 316, PRO, SW)
DuraConnect®	DuraFlex® AL
FasNSeal®	CAS (Combustion Air System)
DuraTech Canada	Gas Vent
CVS (Concentric Vent)	

Poly Pro will not have a price increase. Its pricing will remain the same as 2016 pricing.

PDF formatted price book and an Excel Workbook will be available by the end of February 2017. Please contact your Regional Sales Manager or Diane Jacklich djacklich@duravent.com to obtain a copy of the Excel workbook.

Please contact your M&G DuraVent Regional Sales Manager if you have any questions. Thank you for your continuing support of our company and products.

We appreciate your business.

Sincerely,

A handwritten signature in black ink, appearing to read 'Todd Lampey'.
