

Dear Taekwondo Family,

This manual is dedicated to all of the J. W. Kim Taekwondo students and instructors. We have been happy to provide this resource for our students in all of its various iterations since we first opened in 1995. I have designed this manual to help you understand your belt test requirements as well as answer many of your questions to help you excel in your Taekwondo training.

Taekwondo is the most popular martial art in the world and is renowned for its many kicking techniques. It was a demonstration sport at the 1988 Summer Olympics in Seoul, Korea as well as the 1992 Summer Olympics in Barcelona, Spain. Beginning with the 2000 Summer Olympics in Sydney, Australia, Taekwondo became a full medal sport. It is now one of only two martial arts with this honorable distinction.

Taekwondo has rapidly grown in popularity through the years due to the immense benefits it provides. Many of my students have found greater self-confidence, physical and mental discipline, and improved health as a result of their training. I hope you will all benefit from Taekwondo as I have through the years.

Sincerely,

Grand Master Jung Woo Kim

Grand Master J.W. Kim was born in Seoul, South Korea and moved to Sao Paulo, Brazil a few years later where he started in Taekwondo at age 4. He proceeded to win many prestigious tournaments and became a well known competitor. Ever since he achieved his black belt, he has been actively involved in teaching and coaching Taekwondo.

After being accepted at New York University, Grand Master Kim left Brazil to go to New York City at age 18. In only 3 years he learned English and received a degree in economics. Grand Master Kim speaks five languages in addition to English.

After graduation, Grand Master Kim went on to open J.W. Kim Taekwondo in Greenwood Village, Colorado. Since 1995, J.W. Kim Taekwondo has become one of the largest operations in martial arts in Colorado and has started affiliate programs in Palo Alto, CA, Denver, CO, Highlands Ranch, CO, and Castle Pines, CO. Grand Master Kim has also graduated over 1,500 students to the level of black belt.

Proving that Taekwondo is a foundation for success, Grandmaster Kim now owns many successful businesses in the Denver area that are outside of the martial arts industry. In each of these businesses, he has partners who are also black belts.

- 7th degree black belt- Kukkiwon Certified (2010)
- Appointed as a special advisor to the Kukkiwon (2012)

Other martial arts experience: Hapkido and Brazilian JiuJitsu

Taekwondo is a **Korean martial art that began over 2000 years ago**. Archaeologists have found drawings on the walls of ancient tombs that show men practicing different blocks and punches. The existence of these murals allows historians to date the origins of what we now call Taekwondo to around 50 BC.

In ancient times, Korea was divided into 3 kingdoms: **Koguryo, Paekje, and Silla. Silla later unified the three kingdoms** after winning the war against Paekje in 668 AD and Koguryo in 670 AD. **The Hwa Rang Do** helped in this unification. The Hwa Rang Do was an elite group of young noble men who devoted themselves to improving both their minds and bodies to better serve their **kingdom of Silla**. The Hwa Rang Do had an honor code and practiced various forms of martial arts, including Tae Kyon and Soo Bakh Do. These forms of martial arts are the origins of what we call Taekwondo today. Additionally, the honor code practiced by the Hwa Rang Do is the philosophical basis of modern Taekwondo.

Many years of peace followed the unification of the 3 kingdoms and allowed the people of Korea to learn and practice these martial arts. Unfortunately, in 1909 the Japanese invaded Korea and forbade the

practice of their martial art, that was then being called Soo Bak. Fortunately, people continued to practice Soo Bak in secret.

At the end of WWII, when Japan was driven from Korea, several different styles of martial arts began to develop. **A style or school of martial arts was called a “Kwan”**. Some of the different Kwans that developed were “Chung Do Kwan”, “Moo Duk Kwan”, “Yun Moo Kwan”, and “Ji Do Kwan”. Although they were similar in many ways, there were small differences. **There was no unified way to bow, punch, kick, or compete**. Eventually, the leaders of the separate kwans agreed that the different styles needed to unite in order to grow.

In 1955 the kwans unified and in 1957 the name Taekwondo was adopted. In 1973, the World Taekwondo Federation was founded (later renamed to World Taekwondo in 2017) and in 1980 it was officially recognized by the International Olympic Committee. The 1988 & 1992 Summer Olympics presented Taekwondo as a demonstration sport and **beginning with the 2000 Summer Olympics in Sydney, Australia Taekwondo has joined Judo as the only two martial arts to be recognized by the IOC**.

"Poomse" is the Korean word for a form. All students of Taekwondo are required to learn certain forms. As students of the WT style of Taekwondo you will learn Taegeuk Poomse. The Taegeuk forms of Taekwondo are paradigms of the martial art. They contain the basic physical movements and also the philosophical thoughts from which the art was derived.

Literally, **"Tae" means bigness** and **"geuk" means eternity**. Combined **Taegeuk means "great eternity"**. The **8 patterns** of the Taegeuk forms derive their meanings from the basic tenets of the orient's oldest philosophical work, **The Book of Changes**. Koreans call this book Jooyeok. In the Book of Changes the universe is divided into eight subsequent combinations derived from the major forces of the universe, Yin and Yang. **Yin is the ultimate creative power** and **Yang is the ultimate receptive power**.

Each combination is represented by a symbol called a trigram, because it contains three lines. As the figure below demonstrates, the 8 trigrams are arranged in a circle around the symbol for Yin and Yang. Opposite pairs are positioned across the circle from one another, to represent the interdependent polarities that compose the universe.

The following chart denotes the eight forms of Taekwondo and their meanings:

1. Taegeuk Il Jang	Keon	Heaven & Light
2. Taegeuk Yi Jang	Tae	Joy
3. Taegeuk Sam Jang	Ri	Fire & Clarity
4. Taegeuk Sa Jang	Jin	Thunder
5. Taegeuk Oh Jang	Seon	Wind
6. Taegeuk Yuk Jang	Gam	Water
7. Taegeuk Chil Jang	Gan	Mountain
8. Taegeuk Pal Jang	Gon	Earth

Together these concepts and symbols represent the balance of all nature. In the training of Taekwondo, as in life, we hope to find this balance. The poomse carry with them not only the physical movements but also the meaning of Taekwondo.

Students should strive to perform their poomse according to the criteria below:

1. Forms should begin and end at exactly the same spot. This indicates the quality of your stances and techniques.
2. Students should know the purpose of each movement.
3. Forms should be performed in a rhythmic movement with the absence of stiffness.
4. The pace of the form should be steady without any breaks in tempo. Movement should be accelerated or decelerated according to the specifications of each pattern.
5. Body position should be correct at all times including:
 - a) Foot position should be correctly placed for each stance.
 - b) Upper body should be upright on almost all techniques, and not bent forward, backward or sideways.
 - c) Hips should be aligned in accordance with each specific stance.
 - d) Eyes should be focused on the imaginary attacker and the target of your technique
6. Breathing should be coordinated with each technique so that you inhale as you prepare/chamber for the technique exhale on execution of that technique in order to maximize the power of the specific technique.
7. Hand techniques should be completed with an explosive motion from the chamber. The hand technique should be executed at the same time as the foot is landing into the stance.
8. Each pattern should be perfected before moving on to the next form.

WT STYLE (OLYMPIC STYLE)

1. **TAEGEUK IL JANG** – Heaven and light.
2. **TAEGEUK YI JANG** – Joy.
3. **TAEGEUK SAM JANG** – Fire and clarity.
4. **TAEGEUK SA JANG** – Thunder.
5. **TAEGEUK OH JANG** – Wind.
6. **TAEGEUK YUK JANG** – Water.
7. **TAEGEUK CHIL JANG** – Mountains.
8. **TAEGEUK PAL JANG** – Earth.
9. **KORYO** – Named after an old Korean Dynasty. The people from the Goryeo defeated the Mongolian aggressors. It is intended that their spirit is reflected in the movements of the poomse Koryo. Each movement of this poomse represents the strength and energy needed to control the Mongols.
10. **KEUMGANG** – Means "diamond," symbolizing hardness. Keumgang is also the name of the most beautiful mountain in Korea, as well as the Kuemgang warrior, named by Buddha. Thus, the themes of hardness, beauty, and pondering permeate this Poomse.
11. **TAEBEK** – Translates to "lightness". Every movement in this Poomse is intended to be not only be exact and fast, but with determination and hardness resembling the mountain Baekdoo, the origin of the nation of Korea.
12. **PYONGWON** – Translates roughly to 'vast plain'. The plain is a source of sustaining the human life and, on the other hand, a great open plain stretching out endlessly gives us a feeling of majesty that is different from what we feel with a mountain or the sea.

ITF STYLE

1. **CHONJI** – Means literally "the Heaven the Earth". It is, in the Orient, interpreted as the creation of the world or the beginning of human history, therefore, it is the initial pattern played by the beginner. This pattern consists of two similar parts; one to represent the Heaven and the other the Earth.
2. **DANGUN** – Named after the holy Dan-Gun, the legendary founder of Korea in the year of 2,333 B.C.
3. **DOSAN** – Pseudonym of the patriot Ahn Chang-Ho (1876-1938) The 24 movements represent his entire life which he devoted to furthering the education of Korea and its independence movement.
4. **WONHYO** – Noted monk who introduced Buddhism to the Silla Dynasty in the year of 686 A.D.
5. **YULGOK** – Pseudonym of a great philosopher and scholar Yi I (1536-1584) nicknamed the "Confucius of Korea" The 38 movements of this pattern refer to his birthplace on 38 latitude, and the diagram represents "scholar".
6. **JOON GUN** – Named after the patriot Ahn Joong-Gun who assassinated Hiro-Bumi Ito, the first Japanese governor-general of Korea, known as the man who played the leading part in the Korea-Japan merger. There are 32 movements in this pattern to represent Mr. Ahn's age when he was executed in a Lui-Shung prison (1910).
7. **TOIGYE** – Pen name of the noted scholar Yi Hwang (16th century), an authority on neo Confucianism. The 37 movements of the pattern refer to his birthplace on 37 latitude, and the diagram represents "scholar".
8. **HWARANG** – Named after the Hwa-Rang youth group, which originated in the Silla Dynasty in the early 7th century. The 29 movements refer to the 29th Infantry Division, where Taekwon-Do developed into maturity.
9. **CHOONGMOO** – Named after the great Admiral Yi Soon-Sin of the Lee Dynasty. He was reputed to have invented the first armored battleship (Kobukson) in 1592, which is said to be the precursor of the present day submarine. The reason why this pattern ends with a left hand attack is to symbolize his regrettable death, having no chance to show his unrestrained potentiality checked by the forced reservation of his loyalty to the king.
10. **KWANGGAE** – Named after the famous Kwang-Gae-Toh-Wang, the 19th King of the Koguryo Dynasty, who regained all the lost territories including the greater part of Manchuria. The diagram represents the expansion and recovery of lost territory. The 39 movements refer to the first two figures of 391 A. D., the year he came to the throne.
11. **POEUN** – Pseudonym of a loyal subject Chong Mong-Chu (1400) who was a famous poet and whose poem "I would not serve a second master though I might be crucified a hundred times" is known to every Korean. He was also a pioneer in the field of physics. The diagram represents his unerring loyalty to the king and country towards the end of the Koryo Dynasty.
12. **GE BAEK** – Named after Ge Baek, a great general in the Baek Je Dynasty (660 AD). The diagram represents his severe and strict military discipline.
