Presented by:

Liana Lowenstein, MSW, RSW, CPT-S

Liana Lowenstein is a Registered Clinical Social Worker, Certified Play Therapist-Supervisor, and Certified TF-CBT Therapist who has been working with children and their families since 1988.

She presents trainings across North America and abroad. She provides clinical supervision to mental health practitioners, runs a play-therapy internship program, and consults to several mental health agencies.

She has authored numerous best-selling books including: Paper Dolls and Paper Airplanes: Therapeutic Exercises for Sexually Traumatized; Creative Interventions for Children of Divorce; Creative Interventions for Bereaved Children; Creative CBT Interventions for Children with Anxiety, and Cory Helps Kids Cope with Sexual Abuse. Liana is winner of the Monica Herbert award for outstanding contribution and dedication to play therapy in Canada.

Day 1
Creative Interventions for Troubled Children & Families

This very practical training will present creative engagement, assessment, and treatment interventions to make individual, group, and family sessions meaningful and effective. A step-by-step assessment model will be presented and steps for effective treatment planning will be outlined. Next, innovative, playful activities will be presented including therapeutic games, art, and stories. Interventions will be presented to address issues such as anger management, social skills, stress reduction, and self-esteem. Techniques to strengthen parenting skills will also be highlighted.

Day 2
Creative Interventions for Sexually Abused and Traumatized Children

This workshop will present an innovative model for working with sexually abused and traumatized children. A brief theoretical overview will be provided. Next, the instructor will outline a step-by-step trauma assessment model. The second half of the course will focus on playful interventions to address the core components of evidence-based trauma treatment: Providing psychoeducation; addressing children and families' traumatic stress reactions; enhancing emotional regulation; facilitating adaptive coping; completing and processing a trauma narrative; and enhancing safety skills. Participants will come away with many creative interventions they can use with clients from preschoolers to teens.

Intended Audience

Intended Audiences: This conference is appropriate for Psychologists, Social Workers, MFTs, Nurses, Mental Health Specialists and allied professionals including school-based and community providers who work with children, adolescents, and families.
