

## Penny Pines Effort to Continue

Dear Garden Members, The disastrous fires in our forests make our efforts to help replanting our California forests even more challenging. Please set aside a piggy bank of sorts in your kitchen to put unneeded coins or bills for the purpose of planting seedlings in our devastated forests. We will soon be sending \$411 that was collected in the 2019-2020. You can bring what you have collected to our first non-virtual meeting in the future. God bless you, our forests and the creatures that live there. Sincerely, Ranger Clark (Milsom)
