| ▪ Site Planning and Zoning | Regional Growth Management |

Professional History

President, Reuter Strategy, LLC - Planning and development services firm focused on supporting public and private clients with complex planning, development and infrastructure needs. Engaged during 2017 supporting government, non-profit and private entities as well as supporting other public/private organizations including: Georgia Municipal Association (GMA), Children's Healthcare of Atlanta (CHOA), Peachtree Gateway, 75 Central Corridor Coalition, City of Ball Ground, City of Alpharetta, City of Statesboro, City of Jonesboro, OneStreet Development and City of Monroe.

Manager of Community Development Division, Atlanta Regional Commission (ARC) – August 1999 to September 2016. Created regional and local government practices based on nation models that transformed metro Atlanta. Managed the Regional Commission (RC) responsibilities under Georgia law to become a 14-person multifaceted and nationally influential division. Led multiple Regional Plan updates and implementation programs to meet Georgia requirements. Supported local governments for comprehensive planning and technical assistance for the 10 county Atlanta region for 17 years. Initiated revision to rules for Developments of Regional Impact (DRIs). Developed the \$500 million Livable Centers Initiative (LCI) program which supported local governments and CIDs to transform the Atlanta region. Championed local government plan implementation, transit station area planning (TOD) and coordinated transportation project development. Fostered government and business collaboration at Hartsfield-Jackson International Airport area, known as the Atlanta Aerotropolis Alliance, a 501c6 organization. Division supported the Regional Competitiveness Strategy, Land Use Coordinating Committee (LUCC) and Community Resources Committee (CRC). Supported staff managing key ARC programs including LINK, RLI and Community Choices.

Adjunct Professor Georgia Tech Institute of Technology and Georgia State College of Law – 2004-2008. Dan served as an Adjunct Professor teaching graduate level course on growth management laws and strategies in U.S. regions and states including environmental and transportation planning laws, growth management techniques, regulatory powers and progressive regional tools. Class included both Georgia Tech Graduate City/Regional Planning and GSU College of Law students. Appointed as Adjunct Professor at both Georgia Tech and Georgia State University College of Law. Discontinued teaching to allow greater time and focus on ARC responsibilities.

Professional History Continued

Director of Community Development, Douglas County Government - January 1997 – August 1999.

Dan led responsibilities including administration of transportation planning, comprehensive planning, zoning, code enforcement and building inspections departments operations. County voting representative to the ARC Transportation Coordinating Committee (TCC). Development recommendations to the Board of Commissioners, Planning Commission and Board of Zoning Appeals regarding all planning actions, zoning applications and variances, subdivisions, site plans, building inspections, business and alcohol licenses, code enforcement and development related issues. Supervision of sixteen (16) staff and a \$682,000 annual budget.

Director Planning and Zoning Department, Glynn County Government - May 1994 - January

1997. Dan's responsibilities included supervision of ten staff persons and an annual budget of \$550,000. Department activities included all MPO planning requirements for the Brunswick Area Transportation Study (BATS). Developed a planning process and wrote the 1996 Glynn County Comprehensive Plan. Provided administration to zoning applications and subdivision reviews; county Geographic Information System (GIS); and Flood Insurance Rating Certification program. Developed plans and recommendations to the Board of Commissioners, Planning Commission, Board of Zoning Appeals and MPO committees. Department conducted all MPO responsibilities related to development of Transportation Plan, annual Transportation Improvement Program (TIP) and Unified Planning Work Program (UPWP). Conducted Transit Feasibility Study and Historic Resource Survey.

MPO Transportation Planner, Chatham County-Savannah Metropolitan Planning Commission,

December 1992 - May 1994. Dan developed the MPO Transportation Improvement Program (TIP), Unified Planning Work Program (UPWP), planning for Chatham Area Transit (CAT) transit and paratransit services. Assisted with implementation of ADA transit planning requirements, conducted port and intermodal studies and bike/pedestrian planning projects. Conducted MPO administrative activities including processing quarterly reimbursements, assisted MPO Policy and Technical Coordinating Committees (TCC) and CAT staff.

MPO Transit Planner, Athens-Clarke County Planning Department, November 1990 - November

1992. Responsible for capital grant administration, transportation planning studies, transit service changes, marketing, maintaining legal requirements for the transit department and public relations. Responsible for FTA Section 3 multi-modal transportation center grant application. Initiated first flexible use of ISTEA funds from a roadway project to transit capital purchases in Georgia.
