You're the brightest light  
When I look up  
To the skies at night**

You're the brightest light  
When I look up  
To the skies at night**

**Magic fills the air  
Spirits everywhere  
Comes as no surprise  
Since I looked into your eyes**

**I wish upon a star  
To be right where you are  
Should have known that I would find  
You were right here in my mind**
