

CLIENT TESTIMONIALS

Reverend Nathan Mugala

Pastor

“We looked at proposals from several audio visual companies throughout the state of Florida and we felt SpaceCoast AV did not rake us over the coals on pricing! I was impressed with their commitment to completing the audio visual upgrades to our sanctuary within a very rigid time schedule. However, What impressed me most was their willingness and commitment to being always available and on site, whenever we needed them to be onsite for the whole process. Their professionalism and representation of themselves as a Kingdom Business was first class and genuine. I most definitely will refer them to others.”

CLIENT TESTIMONIALS

Pastor Joyce Moore Greater Allen Chapel AME

“SpaceCoast AV Communications met every need our congregation had when it came to the audio visual upgrades to our sanctuary. I give them the highest ratings on customer care! It is very rare to receive the level of service and care they provide in today’s market. They are highly resourceful. The owners always had the right talent in the right place at the right time. This provided a level of reassurance that was matchless and beyond my highest expectations.”

CLIENT TESTIMONIALS

St. Luke's Presbyterian Church

Bill Rushing
Facilities Manager

“After evaluating several local AV solution providers in the county, we chose SpaceCoast AV Communications because the solution they provided, exceeded our expectations at a low cost and the work they did was great! The ease of working with SpaceCoast AV Communications and the personal touch the owners brought to the project, made the whole process of working with them very enjoyable!”
