TESTIMONIALS

"I received the device in the mail and as soon as I picked it up my tiredness left. My energy levels increased and I felt grounded." P1

"The C2 has an interesting feel. It feels like I am meditating next to the river, very nice.

"This morning I started to feel upset about something. I put on the E1 but that didn't seem to help. I switched to the P1 to see what would happen and that had a better effect - I felt more centered in my own energy and power. It was interesting to me because I thought I needed the emotional support of the E1, but it was the P1 that helped. After a while I felt it was time to take it off."

"This device is very powerful. I use the device in small increments. When I use the device I feel that my chakras are unblocked and my energy has a much stronger flow. The C2 device really helped with my intuition."
