Whenever you do not understand what is happening in your life....just close your eyes, take a deep breathe and say.....'God I know it is your plan, just help me through it.' I have had one of those days and I read this.... then everything just fell into place. WOW!

For our meeting this month we met at Carolina Barbeque for lunch. We had a short meeting and enjoyed just being together. Sometimes we just need to relax and spend time with the ones we love.

Hospice went well as usual. We have been doing this since 2007 and we all are still amazed at how blessed we feel.

We prepared a meal for one of the county fire departments recently. We have done this for the last six years. We cook the meal and meet at the station. The guys are great, they take right over and really wait on us. We love staying, enjoying the time and meal with them. This time we took fried chicken, chicken and pastry, potato salad, green beans, butter beans, deviled eggs, corn muffin and brownies. Then they cleaned up. Just doesn't get much better than that.

For our mission project we decided to collect school supplies for the children until the end of August. There is a box in the back of the church that these items can be put in. Thank you for your help, the schools appreciate it so much. Our 'Day of Prayer' for our students, teachers and schools will be August 26...please remember them not just that day but everyday.

On August 25th we are having a 'Parade of Tables' in the fellowship hall. Each table will be decorated in a different theme. We will prepare a salad lunch for you, as our guest to enjoy and of course we will have desserts. We would like for you to sign the sheets that are posted around the church. There will be a short program and we will ask everyone to 'Parade around the Tables, choose the table you like best and leave a donation on that table.' This will be used as a fund raiser to do more mission work. We look forward to having you as our guest.

Remember, prayer is an open line to Heaven. No cards to use, no low battery problem, no error, no charging, always a signal and messages are always delivered.
