

# THE HAGUE CHRONICLE

VOLUME 15 No. 8

AUGUST 1986

## MILFOIL HEARING SET

The trustees of the Lake George Association Fund, Inc. (LGAF), at their second annual meeting unanimously approved a resolution calling for a hearing date of September 9 to review the application to use Sonar to eradicate Eurasian milfoil in Lake George.

The resolution came in response to a request by the Lake George Park Commission to postpone the original hearings slated to be held August 5. A new hearing date has not yet been set by Robert Drew, the chief administrative judge of the Department of Environmental Conservation.

Dr. Carol D. Collins, scientist for the New York State Museum Biological Survey, and a trustee of the LGAF, told members that it is apparent from results of a recent dive with Michael Mahler, limnologist and Operations Coordinator of Polk County, Florida Environmental Services Division, that the milfoil problem in Lake George is out of control.

In view of the "alarming and rapid spread and growth of Eurasian milfoil in Lake George," according to the Fund resolution, the trustees for the LGAF should urge counsel for the Lake George Park Commission, and other pertinent state authorities to set the hearings for September 9.

## HIGH COLIFORM COUNT IN HAGUE

Results from the most recent water quality studies conducted for the Lake George Association Fund (LGAF) show significant bacterial pollution in Glenburnie, Hague, Middleworth Bay, Sawmill Bay, Sunset Bay, and Lake George Village.

"Now that we have this water testing program, it is crucial that the Department of Environmental Conservation (DEC), Department of Health (DOH), and the involved towns work to enforce the laws prohibiting pollution of Lake George," says Steve Birdsall, Chairman of the LGAF.

The LGAF's water testing program is conducted by

the RPI Fresh Water Institute (FWI). The purpose of the program is to identify pollution in Lake George and to give this information to the proper authorities for enforcement," says Birdsall.

The FWI measures total coliform and fecal coliform bacillus to determine when dangerous pollution levels result from failing septic systems.

According to DOH standards, for a public beach to be considered safe for swimming, the total number of organisms of the coliform group shall not exceed an average of 2,400 colonies per 100 milliliters (ml). A sample taken on July 15 at the Glenburnie pumphouse beach showed total coliform levels of 2,800.

Alarming samples were also taken from the Hague boat launch with a total coliform count of 26,700, and samples from the Hague culvert were 42,900 per 100 ml. This was the highest count on the lake at that time.

...A measurement of 50 fecal coliform per 100 ml is marginal and any measurement over 100 fecal coliform colonies per 100 ml is cause for concern, according to the FWI. Glenburnie, Hague, Middleworth Bay, Sunset Bay in Huletts Landing, and Lake George Village all have recorded fecal coliform levels well in excess of 100. Fecal coliform counts of over 200 are considered so serious they are reported immediately to state authorities for on-land investigation.

At the August 4th meeting, Bill Glass, DEC Senior Engineer Technician, and Dan Olsen, Sanitary Investigator for the Warren County Lake Affairs Committee, reported at least one failing system has been identified in Hague and corrective action has been ordered. The town has been notified. Glass and Olsen believe there are additional pollution sources which they will continue to investigate.

Ed. The failing system mentioned above was the Hague Market's. Art Steitz, proprietor, is to be commended on his prompt action in installing holding tanks within four days of notification.

WILLY C's JULY/AUGUST WEATHER NOTES

In terms of weekend weather things have not really improved since last issue. We have managed to have rain on at least one day of each weekend since the first weekend in July. This past weekend, August 9, was the best, with just a trace on Saturday. Had plenty of rain other days in July too, for a total of 6.63 inches. Temperatures have been summer-like with hot days and pleasant nighttime temperatures. The high was the 90 degrees reported in the July CHRONICLE. In July we lost 48 minutes of daylight. Top wind gust in July was 29 MPH on the 29th.

August has continued in the same pattern. The week of August 4th saw widespread thunderstorm activity throughout the whole northeast with a great deal of electrical activity, local high wind gust and localized areas of very heavy rain, causing road washouts and flooding. The forecast for the week of Aug. 11 is more promising. Fair weather through Thursday. A chance to dry out. Willy C hopes that when you read this that the above forecast was correct.

Air temperature at 9:00 AM August 11, 74 degrees - water temperature, 73 degrees. The lake is probably as warm as it will get this year.

Enjoy the nice days and have a good summer.

ATY CERTIFICATION

Governor Cuomo has signed into law a bill that will require all youthful (10 - 15 year old) operators of ATY's to have completed a certification course before they will be permitted to operate an ATY off their own property. This law goes into effect January 1987.

In Warren County the certification courses will be conducted by certified volunteer instructors in conjunction with the Cooperative Extension 4-H Program.

Individuals who would like to serve as volunteer instructors are asked to contact the Cooperative Extension Office, Schroom River Road, Warrensburg, NY 12885. Phone: 623-3291 or 668-4881  
...Andrew C. Sprague, Cooperative Extension Agent

\*\*\*\*\*

One's philosophy is not best expressed in words, it is expressed in the choices one makes. In the long run, we shape our lives and we shape ourselves. The process never ends until we die. And the choices are ultimately our responsibility....Eleanor Roosevelt

THE HAGUE HISTORICAL SOCIETY PRESENTS  
A SPECIAL PROGRAM

At 8 PM on Monday, August 18, the Hague Historical Society presents Tom Lord in a program on the Silver Bay Boys School in the Watson Art Building.

The Silver Bay Boys School furnished an innovative education in its short life to boys from many states as well as locally. Studies in the classroom would be complemented with practical work sessions outside, a form of education then unusual, although now widely used.

Mr. Lord has been the Director of the Silver Bay Association's waterfront for the past nine years. He is professor of Biology at the Burlington County College in Pemberton, NJ. He has a doctorate in Biology as well as a B.S. and Masters degrees. He has developed his interest and talks of the various aspects of the Silver Bay Association over several years of researching the records and photos which he has retrieved from the old files and closets of the association. Of his seven varied lectures on these histories, The Hague Historical Society has asked Doctor Lord to relate the unusual story of the Boys School.

The public is invited by both the Society and the Silver Bay Association to attend the program in Watson Art Building at 8 PM...Robert Cole, President

SABBATH DAY POINT CHAPEL SERVICES

Services to be held in the Grace Memorial Chapel at Sabbath Day Point for the remainder of the summer are as follows:

August 17 - Rev. William Babinsky, Retired: Reformed Church in America, Whiting, NJ

August 24 - Rev. Leon M. Adkins, Jr., Albany District Superintendent, United Methodist Church

August 31 - Rev. Susan Hager-Smith, Vergennes and Addison Methodist Churches, Vergennes, VT.

Services begin at 10 AM. The Chapel is now in its 102nd year of operation.

SENIOR CITIZENS CLUB

The monthly meeting of the Hague Senior Citizens Club will meet on August 26 in the town hall at 1:30 PM. We are combining our membership with the Hague Historical Society on Sept. 11 and taking a bus trip to the New York State Museum in Albany. We will all meet at the Hague Baptist Church parking lot at \$ 8:30 AM. If you would like to join us call Diane at the town hall, 543-6161 and get your name on the list. You only have to be a senior citizen or a historical buff to come.

TOWN BOARD MEETING - 8/12/86

The August 12 Town Board meeting opened with John Velte of Van Buren Bay requesting consideration for a speed limit of 5 mph in said bay. Every home owner in the area who is in residence signed the letter he presented to the board. Reasons for request included swimmer safety, noise pollution and possible disturbance to their drinking water. Later in the meeting it was decided a public hearing would be held on this request at the next town board meeting to be held on Sept. 9 at 6:30 PM

Supervisor Bolton read a report from R.P.I. showing the extremely high coliform count at our Hague Boat Launch Culvert. At 17,700 count the area was tested for three consecutive weeks and the problem area found. The town plans to correct its problem at the town hall with a holding tank for the town hall. (See p. 1 for other coliform counts.)

Department of Transportation informs us that a proposal to install a 1/2 million dollar truck runoff on Rt. 8 above the existing light installed last year, is in the works.

With the exception of a minor item or two the Department of Health gave our town beach a high rating.

In unfinished business it was decided that by next month a replacement for Ev Lee will be made. He resigned last month from the Zoning Board of Appeals. Anyone interested in being considered can fill out an application with Diane Frasier in the Town Hall.

In new business a motion was passed to permit our two secretaries to attend a seminar on "Computers For Local Government Use" to be held in Lake George on Oct. 23-24.

Hague has always been a popular place but unfortunately our newest addition is called Eurasian Milfoil and has taken up residence at the Hague boat launch where it is multiplying rapidly. After the summer rush our town officials plan to have the weed hand picked and follow procedures used in various areas of the lake. They are considering a pump to wash down boats before and after they use our boat launch. You'll hear more about this problem and possible solutions.

Three resolutions were passed for state aid in:

- (a) Developing land use
- (b) Helping with environmental procedures in housing rehabilitation (HUD)
- (c) Acquainting APA with amendments to zoning ordinance (community development plan.)

With the high cost of closing a landfill, Supervisor Bolton has joined the other Warren County supervisors in suggesting that all communities join together in hiring an engineering firm to develop our future resource recovery program. This would mean a large saving for each town. Commissioner Henry Williams wants another study before deciding on a final plan.

Mr. Bolton also informed us that a Lake George law states there can be no consolidated sewage systems in the Lake George basin and legislation would be needed for Hague hamlet to have such a system.

A committee has been formed to review housing requests on our HUD grant. Members are Dick Frasier, Ken Yaw and Dick Bolton.

On August 20 there will be a public hearing on our Land Use Amendments, in the Town Hall at 7 PM.

**EXCERPT FROM A LETTER FROM A CONCERNED LEGISLATOR:**

...."As you know, the problem of milfoil growth in Lake George is becoming progressively worse. Each passing week brings the revelation of new and expanded milfoil beds. The increasing severity of the infestation has not been met with directed action on the part of the state agencies. The use of bottom mats has proven ineffective. Hand harvesting and suctioning the plants are to be tried, while the proponents of these methods admit they are merely attempting to control rather than eradicate the weed growth. Given the rapid spread of the milfoil, this alone is unacceptable.

"Unfortunately, the proponents of eradication through the use of the chemical Sonar must now amend their application for treatment to address the increased need and hearings on the chemical must await their preparation. Given the Governor's failure to act, all that can be done is to press for approval at a date that allows for effective treatment."

LAKE GEORGE MIRROR - June 20, 1891

Summer Homes - "...The Hillside House and Island Harbor House at Lake George are family hotels and the Hague, on Lake George, is a very pretty place, where there is good fishing. By the way, more than 2,000 pounds of trout were taken this spring by guests stopping at these two hotels."

...."There is a cottage colony on the shores of the lake 300 strong. It is likely that I may have something to say about some of the cottages in a future letter."...W.H. Tippetts

HAGUE FIRE DEPARTMENT

The Hague Volunteer Fire Department would like to extend its thanks and appreciation to all those who have shown their support so far this summer. The rummage sale and steak roast were successful as usual, and the funds earned from these events will ultimately help protect the community. A special thanks are in order to the Silver Bay Association and the EMPS who worked so hard to produce Oklahoma. We all enjoyed it.

Proposals have been made to install dry hydrants at various locations in the village of Hague. These will be a tremendous help in speedy response to and successful fighting of fires. Additional installations are possible in many locations with reasonable access to a water source that may not be easily accessed by fire pumpers or portable pumps. Any community or neighborhood that is interested or is concerned about fire fighting capability in an area, please feel free to contact either Chief Paul Davis or 1st Asst. Chief Jim Young.

The Hague Volunteer Ambulance Corps had eleven runs totaling 456 miles and 72 man hours. The HVFD responded to three fire calls including one mutual aid response to Ticonderoga..

AMERICAN LEGION

Regular meeting of Hague Post American Legion will be held on Monday, Sept. 8 at 8 PM at the Legion Home. All members who can possibly attend are urged to do so in order to take part in the formulation of plans for the ensuing year. Refreshments will be served.

Also, on Wed. Sept. 10 at 8 PM Hague Post will host the September meeting of the Warren County organization of the American Legion, also at the Legion Home. All local members are welcome to attend and refreshments will follow the meeting.

Post members who have not yet turned in money doll tickets are requested to do so as soon as possible as the drawing will be held on Labor Day. ...BAC

Democracy is the art of disciplining oneself so that one need not be disciplined by others...George Clemenceau

LGA NEEDS HELP!

You who are members of the LGA have recently received a letter from them requesting contributions for legal fees. With developers more sophisticated these days, they are bringing attorneys into hearings and the LGA must respond with expert legal representation.

Also, it is estimated that legal expenses for mittoil may go as high as \$20,000 including hearings. Recognizing the need for funds for legal fees will be ongoing, the LGA Board has established a LEGAL ACTION PROGRAM. This year's goal is \$20,000.

For a minimum contribution of \$20 per family the LGA can go forward with this vital program to save our lake. Please make checks payable to LGA Legal Action Program..

P.S. If you are not now a member of the LGA and have an interest in preserving Lake George for future generations, please join your neighbors now in becoming a member. The LGA is dedicated solely to preserving the lake. They need your support.

THE LEGEND OF STUPID ISLAND

or

How the Island Got Its Name

Many years ago at beautiful Uncas Bay lived an Indian tribe. Their council fireplace, a ten foot circle of fire blackened stones still remains.

The Chief of the tribe had a lovely Princess with many suitors. To select a brave worthy of her hand greatly concerned the Chief.

It was winter. There was thick ice on the lake. The Chief made a decision. He would cut a hole in the ice and another across the lake at the island sometimes mistakenly called Odell. He would have the braves dive into the first hole, swim under the ice to the island. The first to reach the island would have her hand.

The braves dove into the hole. The Chief and his daughter walked over to the island and waited, -- and waited. After hours had passed it became obvious that none would claim her hand.

The Princess became very angry, stamped her little foot and cried "Daddy, this is Stupid."

And that, my friend, is how the island got its name

\*\*\*\*\*

"The Star Spangled Banner" bore another name when it was first published in September 1814 in the *Baltimore Patriot*; it was called "The Defense of Fort Mchenry." The title was changed about a month later.

"DIAMOND JUBILEE" SAILING REGATTA  
A TEST OF ENDURANCE

The Diamond Jubilee Star Class Sailboat Championship held in Hague Bay Aug. 4,5,6 & 7 was finally completed in spite of heavy rain and thunderstorms on Thursday, Aug. 6 and contrary winds on Friday.

Since the regatta is the championship of the Northeast 12th District, three races must be completed. It took five starts to accomplish this. The race on Thursday during the terrible weather was a "heartbreaker" in that it was not completed during the 3- 1/2 hour time limit with the lead boat way out in front having only 10 seconds to go! Friday morning's race was cancelled after one hour of light shifting winds and was rescheduled for the afternoon and finally completed with "Skip" Meislahn taking first place.

First and third places in the Blue Star Division of the series were won by Dave Cook and J. Bointon, both of Lake Sunapee. Second place taken by Harry "Skip" Meislahn, locally of Heart's Bay, with Dean Cook as his crew, also of Heart's Bay. Other local sailors also fared quite well in the fleet of 31 boats with Hank Rowan placing 5th, Dick Bliss 9th, Bob Wotton 10th, Bob Mayer 13th and Peter Marshall 14th. As a result of this good showing, the local Lake George Fleet based at the Northern Lake George Yacht Club was awarded the "Leather Stocking Trophy" for the highest scoring fleet.

Bob Cook, crewing for his dad, was awarded the "R. G. Norris Trophy" for the 12th District Champion Crew, and Elizabeth Cronin, Forest Bay, crewing for Dick Bliss, was awarded the John Nicholson Memorial Crew Trophy" for leading crew 20 years and under.

By Saturday all the weary sailors had departed for their home ports satisfied that at least they had won out over the fickle weather!

.....Robert W. Mayer, Fleet Secretary

THE PRESIDENT IS MAKING WAR ON DRUGS.  
WHY DON'T WE FIGHT THE BATTLE HERE AT  
HOME?

TASK FORCE

Dr. Charles Boylan of the FPI Fresh Water Institute announced to the members of the Task Force for the Future of Lake George at their meeting on November 14, 1985 that Eurasian Milfoil had been discovered in Lake George and he said that "this plant should not be taken lightly. If it seeds next year, in all probability it will spread all over the lake..." Charles Morrison or Michael White should be able to supply the minutes of this meeting. The Task Force for the Future Plan for Lake George was established by DEC Commissioner Henry Williams.)

The membership of the Task Force is composed of PAID personnel from DEC, DOH & APA and representatives from the towns in the Basin. The names of those who serve on this Task Force and the attendance record of each are available from Chairman Morrison.

The public has a right to be given documented evidence of the investigation and research that DEC, DOH and APA have done on the subject of Eurasian Milfoil since the Nov. 14, 1985 meeting of the Task Force that was held in the Glens Falls Municipal Center.

The milfoil plants have been found in Lake George throughout the lake. Containment booms and plastic mats have had little or no effect on curtailing the spread of milfoil. Another adjudicatory hearing is scheduled for September and the Lake George Association anticipates expenses of between \$20-\$30,000 to bring in expert witnesses from all over this country to testify at this hearing regarding the use of the herbicide Sonar to combat milfoil. The State owns the bottom of the lake and APA and DEC claim jurisdiction over the water...AC

EMERGENCY NUMBERS - Hague residents residing in the 585 calling number should dial 0 and ask for State Police, or dial 1-494-3201 (Chestertown barracks).

HAGUE TOWN COURT

Judge Kenneth Yaw reported two cases of DWI. In other cases, 6 Hague young people, after a night of vandalism in various sections of the town ended in an accident in Pine Cove, demolishing the car but fortunately there were no serious injuries. Judge Yaw fined four of the six \$100 each and all were sentenced to make restitution for the damage they caused.

PEOPLE OF HAGUE

The following are excerpts from a presentation made by Jack Henry to the Hague Historical Society in October 1976 and reported in The Hague Chronicle in December 1976.

"With apologies to Wm. Chapman White, I would like to preface my remarks with a modified quotation.

There's two kinds of Hague natives. There's them as was born here and stayed on. Then there's them as came here when they were growed up; it usually takes them about six months to become natives.'

"Hague, which is only a geographical definition has always existed but it did not become Hague until so defined by New York State on April 6, 1808. It was first part of Bolton, became separate in 1807 as Rochester, then became Hague the following year.

I. Indians and Armies:

(prior to 1760 - no permanent population) Before 1760 Indians, French and British armies were the only people in this area. They made several parts of the town well known historically and we see evidence of them today.

Sabbath Day Point was always one of the more prominent stopping points because it was half way between Ticonderoga and Lake George Village. The views were open from each end and you could see a long distance. Also, there were a lot of deer in that area, probably an ancient Indian hunting ground.

Several places were noted as Indian camping places:

(A) Sabbath Day Point or Sabbataire Point?

At that time, Indians converted by the French and baptized "St. Juan Baptiste" went by the name Sabbataires. It seems possible to me that those Indians gave it the name Sabbataire Point.

(B) Friends Point - So named by two Indian groups who learned just before they started to fight that they were not enemies but friends.

(C) Piney Point in Oneida Bay was an Indian camping ground. It was the site where the flint chipping stone - now in front of the Silver Bay Library - was found.

(D) Viewpoint and Sentinel Pines beaches are not mentioned in any historical document but so many pieces of worked flint have been found there, up around The Island Harbor House, and many places in the back woods, it seems Indians must have fought and hunted widely over this area. Many arrowheads, flints from rifle locks and some shard have been found at Viewpoint in the last two years.

II. The First Settlers: 1760-1830

Population 0 - 721

The first settlers came into the area after the end of the French and Indian War, during the period from 1760 to 1830. The population rose from 0 - 721, which isn't too far from our present day population

(A) Samuel Adams built the road from Bolton to Sabbath Day Point and, in return, was granted 500 acres of land in 1767

Adams built a house on what was reputed to be an old Indian longhouse foundation. During the revolution, Adams moved to Ticonderoga. We don't know who lived in the house after Adams left but according to Mrs. Adolphus Sheldon, it was the only house on the point in 1797.

(B) Lt. Col. Robert Cochrane, James Caldwell and Robert McClallen, all of the 2nd New York Regiment were granted 40,000 acres in 1769 at 12 1/2 cents an acre in depreciated currency. They sold out to a Mr. Ellice from London in 1793.

(C) Silver Bay (after 1783)

After the revolutionary war, three Mohicans from Barnstable, CT who had served under Israel Putnam during the revolution, settled in Silver Bay. Jonathan Daunt, Moses Paul and Samson built a house where the Silver Bay concrete walk meets the road.

Moses Paul married a beautiful Indian girl. They moved out west to be with Indians. On their return she stated that she preferred the Indian life to life with civilized people. Samson left and was later tried for murder in CT and executed. Daunt barely eked out a living doing chores at Silver Bay.

(D) Jabes Patchin, a loner who preferred fishing to work, first built his house and grew his crops at Jabes Pond. About 1800 Jabes moved down to the shore and built his house where the old south wing of what is now The Silver Bay Hotel, stood. Seneca Prouty bought Jabes house, raised it and built a first floor under it to open his hotel. Prouty sold to John J. Wilson in 1885. James and John Braisted were born there.

SOUNDINGS

BORN - A son, Matthew Clifford, to Edna and Dick Frasier of Lake Shore Drive, Hague, on July 21 in Glens Falls Hospital. Grandparents are Mr. & Mrs. Clifford Frasier, Graphite and Mrs. S. Richard Frasier, Hague. Great grandmother is Mrs. Claire Piantodosi, Hague.

BORN - A son, Joseph Michael, to Linda and Jack Tomer, of Forest Bay and Arlington, VA. on August 7. Proud grandparents are Del and Lari Dhein, Forest Bay.

BORN - A girl, Megan Marie Steitz on August 9 at Moses Ludington Hospital. Father is Dan Steitz, mother, Billie. Grandparents are Joan and Art Steitz, Hague Market.

MARRIED - Mae Louise Pagan, Hague, to Dick Gurney of Whitehall on July 26 on the grounds of the bride's home in Graphite.

\*\*\*\*\*

DIED - Dan Brady, Lake Worth, FL in July. Mr. Brady and his wife were summer visitors at the Island Harbor House in Hague for many years.

GARDEN CLUB BAZAAR

The Carillon Garden Club will hold its annual bazaar at the Hancock House in Ticonderoga on Saturday, August 16 from 10 AM to 3 PM.

In case of inclement weather the bazaar will be held at the Methodist Church on Wicker St.

NOTICE TO THE VOTERS OF HAGUE

The voting machine for the Town of Hague will be open to the voters for the purpose of inspection and instruction of the use of the machine on September 3rd, 4th and 5th, 1986 from 1:00 PM to 3:00 PM for the PRIMARY ELECTION of September 9, 1986.

\*\*\*\*\*

DEMOCRACY MOVES SLOWLY  
BUREAUCRACY DOESN'T MOVE AT ALL...MB

DISHWASHER COOKING

I just learned the best way to cook a salmon - in the DISHWASHER. A Canadian friend assured us that for a perfectly poached salmon, it should be wrapped very securely in aluminum foil and run through the full cycle of the dishwasher - minus the detergent of course. I thought at first she had gotten her words mixed up, being a "foreigner", but since she's from English-speaking Canada, I decided she must really mean dishwasher.

I was so intrigued by this idea that I related it to another visitor. She was surprised that salmon could be prepared this way. "I knew that corn could be cooked in the dishwasher, but I've never heard of salmon done that way," she said.

Do any other readers have a favorite recipe done in the dishwasher? Send it to the Hague Chronicle for a possible publication entitled "THE DISHWASHER COOKBOOK"... GHK

DRIYER SAFETY EDUCATION

On Thursday, August 21, 1986, the Ticonderoga Central School District will offer a 2-hour Pre-Licensing Driver Safety Course. The course is offered to fulfill the Commissioner of Motor Vehicles regulations for those who are applying for their New York State drivers license.

The class will meet in the Ticonderoga High School, Room 304, from 6:30 to 9:30 PM. The fee is \$10.00.

To pre-register, please call 585-7422.

FOOD AND RUMMAGE SALE

The Hague Volunteer Fire Department is badly in need of roof repairs on the Hague Firehouse. We are putting on a Food and Rummage Sale on September 25, 26 and 27 at the firehouse to help raise money for this project. Now is the time to clean out your closets before you leave for the winter and donate your articles to this worthy cause. All donations, large or small will be appreciated.

Call Ida May, 543-6029, to make arrangements for things to be left at the firehouse or to be picked up.

CALENDAR OF EVENTS - AUGUST & SEPTEMBER

AUGUST

- 16 Carillon Garden Club Bazaar - Hancock House - 10 AM - 3 PM
- 19 Fish and Game Club - 7:30 PM
- 19 School Board meeting - 7:30 PM - THS
- 20 Public Hearing (Changes to Zoning Ord.) - 7 PM Town Hall
- 21 Senior Citizen Bus to Glens Falls
- 26 Senior Citizens Club meeting - 1:30 PM
- 28 Zoning Board of Appeals - 7:30 PM

Veterans Administration representative in Town Hall every Thursday at 11:30 AM.

SEPTEMBER

- 1 LABOR DAY - all offices closed
- 1 World War II began, 1920
- 3 ) Inspection and instruction on voting machine -
- 4 ) 1 - 3 PM
- 5 )
- 4 Senior Citizens Bus to Glens Falls
- 4 Planning Board - 7:30 PM
- 8 Fire Department meeting - 8 PM
- 8 American Legion meeting - 8 PM
- 9 Town Board meeting - 6:30 PM
- 9 Primary Elections - Democratic and Republican parties 1 - 9 PM

OVERTURE

Sing me crickets  
 Sing me frogs  
 Sing me things  
 From under logs

Sing me bugs  
 And bats and bees  
 Sing me things  
 That climb in trees

Sing me birds  
 Sing me flowers  
 Sing me things  
 That charm the hours

Sing me songs  
 That banish strife  
 Sing me songs  
 That welcome life.  
 ....Harry D. de Buys
