Authorization to Treat

I hereby consent to the rendering of medical care, which may include routine diagnostic procedures and such medical treatment as deemed necessary by Dr. Berman. I understand that I have the right to refuse to consent or refuse treatment at any time. I understand and agree that regardless of my health insurance status, I am ultimately responsible for the balance on my account for any professional services rendered.

Cancellation/ No Show Policy for Appointments

We understand that there are times when you must miss an appointment due to emergencies or obligations for work or family. However, when you do not call to cancel an appointment, you may be preventing another patient from getting much needed treatment. Conversely, the situation may arise where another patient fails to cancel and we are unable to schedule you for a visit, due to a seemingly "full" appointment book.

If an appointment is not cancelled at least 24 hours in advance you will be charged a **(\$50)** fee; this will not be covered by your insurance company.

Cancellation/ No Show Policy for Diagnostic Testing

If a diagnostic test is not cancelled at least 24 hours in advance you will be charged a **(\$100)** fee; this will not be covered by your insurance company.

Late arrivals

We understand that delays can happen however we must try to keep the other patients and the doctors on time. If a patient is **15 minutes** past their scheduled time, we will have to reschedule the appointment.

Account Balances

We will require that patients pay their account balances to zero prior to receiving further services by our practice. Patient with balances over \$100 must make payment arrangements prior to future appointments being made.

Patient Financial Responsibility

Our office is doing everything possible to hold down the cost of medical care. Recognizing the need for our patients to have clear understanding of their financial responsibility for medical services, we have established the following policy:

- 1. All co-pays, deductibles and co-insurance must be paid at the time services are rendered. We accept cash, checks, and all major credit cards. A \$25 fee will be charged for any returned check. We are members of most, but not all insurance plans. You are responsible for verifying what your insurance will cover and that we are providers on your plan.
- 2. We will bill your medical insurance company with a copy of your current insurance card. If you do not have your insurance card and we are unable to verify your coverage, full payment is due at the time of service.
- 3. If payment is not received from your insurance company within 60 days of the date of service any balance will be your responsibility.
- 4. You will receive at statement from our office after your insurance company's response. If you are dissatisfied with their payment, please contact your insurance carrier. Payment of the patient's portion of the balance is due upon receipt of the statement and prior to any additional office visit.
- 5. If you do not have insurance or if the services provided are not covered by your insurance, payment in full is expected at the time that services are rendered.
- 6. All accounts 90 days past due will be turned over to a collection agency and our office may cease providing services to you.
- 7. All appointments require a 24 hour notice for cancellation and scheduled procedures require a 48 hour cancellation notice. We understand that emergencies arise, but appreciate your consideration of their policy. If three such occurrences take place, you may be dismissed from the practice. Failure to present for your appointment or give the required notice will result in a \$50 missed appointment fee or a \$100 missed procedure fee.

Our primary mission is to provide you with quality, cost effective, medical care. Together we are trying to adapt to the changing way that health care is financed and delivered. We value you as a patient and look forward to the opportunity to provide you with the best possible care.

I have read and understand the financial policy set forth by Larry F. Berman, $\mbox{MD}.$

A WORD TO OUR PATIENT ABOUT PREVENTATIVE CARE-PHYSICIAL EXAMS

Preventive care includes routine well exams, screenings, and immunizations intended to prevent or avoid illness or other health problems.

This exam is prevention focused, not problem focused. If you have a new health problem or other diagnoses that need to be addressed during your preventive office visit, e.g. (high blood pressure, diabetes, skin rash, or headaches), your provider may bill part of the exam at 100% for your annual preventive exam and part of your office visit for treatment of your diagnosis.

At your preventative visit, our healthcare team will take a complete health history and provide several other services including, but not limited to:

- Screenings to detect depression, risk for falling and other problems,
- A limited physical exam to check your blood pressure, weight, vision and other things depending on your age, gender and level of activity
- Recommendations for other preventative services and healthy lifestyles changes

The portion of your visit related to the treatment of your diagnosis would apply towards
your deductible and coinsurance.
