**Nutrition Analysis Key:**
- **CAL = Calories**
- **CHO = Cholesterol**
- **SOD = Sodium**
- **PRO = Protein**
- **FAT = Fat**
- **CARB = Carbohydrates**

*All Meals Served With 2% Milk*
Slow cookers are handy kitchen tools that use steam instead of oil or butter to cook food. This low-fat cooking method keeps calories in check. You can also save money with a slow cooker. Use one to easily turn inexpensive cuts of tough meat into a delicious meal. Keep reading for tips on how to use a slow cooker:

- **Understand the settings:** Cook tender cuts of meat on high. Tougher cuts of meat need to be cooked longer, so set the slow cooker to low.
- **Explore your slow cooker’s features:** Check for options like warming and automatic shut-off, and learn how they work.
- **Fill it up:** For a successful meal, fill the slow cooker to half to three-quarters of its capacity.
- **Leave the lid on:** When food is cooking, do not lift the lid often. Steam is used for cooking. Lifting the lid allows the steam to escape, which slows the cooking process. Lifting the lid frequently also allows the cooking temperature to fall. That may allow harmful bacteria to grow.

For tasty slow-cooker meals, try recipes using these ingredients:
- Pork roast or loin
- Fish
- Chicken (whole or cut into pieces)
- Beef roast, brisket, or stew meat
- Lean ground beef
- Beans
- Vegetables that won’t get mushy (like potatoes, onions, mushrooms, celery, carrots, and canned tomatoes)
ALL ACTIVITIES CANCELLED UNTIL FURTHER NOTICE WITH THE EXCEPTION OF

NAIL IT DOWN - DECEMBER 15 & 17
QUILTING CLUB - DECEMBER 2 & 16

DOLORES COUNTY SENIOR SERVICES IS OPEN MONDAY THROUGH FRIDAY 8:30 A.M. - 4:30 P.M.
DIRECTOR'S CORNER

Welcome to December,

Here we are into the Holiday Season, a beautiful time of the year. The end of the year is just around the corner and, for me, it’s a time of reflection and thanksgiving.

What a year this has been with COVID-19 and all of the changes in the way we deliver our services! Fortunately, our numbers remain low and we are not seeing the big surge in cases as other areas are. It’s been a long 9 months and we are missing all of you! I’m optimistic that we will soon resume our normal activities and be able to enjoy each other’s company.

All-in-all we have had a very busy and pretty good year at the Senior Center. Even with the Pandemic we have provided over 23,850 units of service through our programs that include home delivered meals, transportation trips, homemaker hours, home chore units, caregiver meals, monitors, Medicare counseling, resource referrals, Nail-it-Down, and senior commodity boxes. All of these have been provided by our sixteen AWESOME Senior Services Employees.

I am so thankful to everyone who enables our Senior Services to provide those services that help our elderly remain in their homes independently with dignity as long as possible.

I am looking forward to the New Year. There are so many exciting possibilities for the future of Senior Services and so many opportunities to serve the people in our community.

It's been an unusual year, but we will carry on and be thankful for all that has been provided to us!!

I hope you all Have a VERY Merry Christmas!!!

Julie
About the month of December

December is the twelfth and last month of the year in the Gregorian Calendar and one of seven Gregorian months with the length of 31 days.

December's flower is the narcissus or holly. December's birthstones are turquoise, lapis lazuli, zircon, topaz (blue), or tanzanite.

In Latin, decem means "ten". December was also the tenth month in the Roman calendar until a monthless winter period was divided between January and February.

December is the month with the shortest daylight hours of the year in the Northern Hemisphere and the longest daylight hours of the year in the Southern Hemisphere.

December in the Northern Hemisphere is the seasonal equivalent to June in the Southern Hemisphere and vice versa.

In the Northern Hemisphere, the beginning of the meteorological winter is 1 December. In the Southern Hemisphere, the beginning of the meteorological summer is 1 December.

December starts on the same day of the week as September every year. December ends on the same day of the week as April every year.

It costs $188,906,668.97 each year to feed Santa cookies and milk, and to feed his reindeer carrots. That’s a staggering amount of money.
