

BIRTHING OF THE MANCHILD

GESTATION OF JUPTIER IN VIRGO

The Great Virgo Sign in the Heavens

The purpose of this study is to show that the actual transference of Jupiter that is associated with the *Great Virgo Sign* of September 23, 2017 will not take place on that exact date. Jupiter will cross the threshold of *Virgo's* 'womb' 13 days prior excluding end date. Also, Jupiter's moon *Europa* is the first heavenly body to cross the threshold of the 'womb' of *Virgo*. It is exactly 15 days, or 1 Earth *lunar cycle* from the *Virgo Sign*. It is actually on the September 9, 2017 that Jupiter as the 'Manchild' is 'born'. Based on a sequential order and their Greek mythology, a possible prophetic nuance might be hinting as to what is to be 'birthed'. This study suggests a duality of a 'Christ' factor and an AntiChrist one.

This study suggests that there is a duality of meanings possibly associated with this celestial motif of Jupiter. One is the clear Biblical one as depicted in Revelation 12 that is ascribed to the corporate body of Believers in the Messiah during this *Church Age* as well as Jesus Christ. It is also of the *Elect or Remnant of Israel* as well during the Tribulation period of *Jacob's Troubles*. However the antithesis is that of the Luciferian occult. Primarily it is in the notion of Jupiter's various moons that will proceed it. They are named after the various gods of Greek mythology and paint a rather prophetic picture of not the 'Christ' factor being born but that of the AntiChrist.

The moon *Io* was also a maiden which Zeus wanted but was turned into a heifer or 'beast' that produced later on many of the renowned 'gods' of Greek mythology. Evidently the AntiChrist Beast system will have the equivalency of the 10-Toe confederation of nation that will make up the last vestige of the Roman Empire that has continued to this day per the typology of Daniel's interpretation of Nebuchadnezzar's dream. The moon *Amalthea* is the goat-god that was the 'step-mother' of Zeus. She was the high-priestess that obviously has a *Baphomet* connotation and that of the coming *False Prophet* that will seek to take the place of all that is holy.

It will be in November 20, 2016 that Jupiter enters in the 'womb' region of *Virgo*. According to the prophetic typology, this starts the 9-month gestation or pregnancy period that will result in the 'birthing' of Jupiter as the *Manchild* on September 9, 2017. This will be just about 13 days out from the *Great Sign of Virgo* itself. The following is the order of the various moons that cross first before Jupiter. *Callisto* will be first then followed by *Ganymede*, *Metis*, a day before and then *Amalthea* and *Adrastea* along with Jupiter.

Birth of the Manchild

If one takes the Luciferian dichotomy in interpreting the sequential 'birthing' of Jupiter's moons to have a possible prophetic meaning, then the following is suggested. Based on the Greek mythological narrative of such names, *Europa* was a maiden taken or raped by Zeus. This can be seen as presently Europe is being raped, literally by the hordes of Muslims so called refugees. It could also signal that it will be in Europe from where the coming AntiChrist is to rise. The second interpretation is that of *Ganymedes*. This was a mortal that became a 'god' and also taken by Zeus because of his beauty; some say as his homosexual lover. This speaks of the *apotheosis of man* as the AntiChrist will portray and promise also to all those that take on the *Mark of the Beast* of being able to be more than 'human'.

As far as Biblical 'signs' go, the actual sign given is not the event itself. If something or someone is to be 'birthed', this event is just signaling that the event is perhaps on the horizon and about to occur. However, the actual date and time is very significant as to its source and depiction. Can 1 event signal 2 birthing's of a prophetic dichotomy? Yes. On one level of possible prophetic meaning, this sign could be related to a completed gestation period of a 'body' associated to Christ's Body. The time Jupiter, known as the Planet of the Messiah and the King Planet is in the 'womb' of Virgo may signal the expecting time of something that is about to be birthed in the world or out of the world even. On the other hand, it can also be associated with the 'birthing' of the *New World Order* and/or its 'Christ' *Manchild*; in this case the AntiChrist. On the other hand, it can be attributed to the completion of the *Church Age* perhaps.

Before Jupiter becomes *retrograde* it enters into *retrograde zone* and starts slowing down. Before it becomes stationary and starts moving into backward direction, it keeps moving into its forward direction with what is called a 'retarded speed'. Jupiter remains in its stationary motion for some moments before it starts moving backward. The time when Jupiter just starts moving backward is called the *progression*. The same is true while Jupiter becomes *progressive*; it starts moving into forward direction. Before Jupiter becomes *progressive* it remains into *retrograde zone* and starts moving into forward direction till it gains full speed. The time when Jupiter just starts moving into forward direction or gaining full speed and leaving retrograde zone takes some more time. Jupiter takes around 12 years to do a complete revolution around the Sun. Jupiter goes *retrograde* every year for around 120 days.

Is there also thus a prophetic connotation inferencing the 120 Disciples gathered in the Upper Room that was the type of First Fruits of the *Church Age*? Does this numerical coefficient signify Virgo as the agent or carrier of the pregnancy as is the Church that is 'forming' the Christ factor to be birthed collectively as well as individually as taught by the Apostle Paul? 'Nevertheless, it is good to be zealous if it serves a noble purpose—at any time, and not only when I am with you. *In Galatians 4:19-20 it states the following. 'My children, for whom I am again in the pains of childbirth until Christ is formed in you, how I wish I could be with you now and change my tone, because I am perplexed about you.'* The subsequent time periods are noted for the phenomena of Jupiter as the 'Manchild' to be 'birthed' of Virgo.

'Pregnancy' Period

From November 20, 2016 Jupiter enter 'womb' of Virgo to 'birth' on September 9, 2017

= 293 days

= **9 months**, 20 days excluding the end date

= 41 weeks and 6 days

= 80% of a year

Retrograde

From February 6, 2017 to June 9, 2017

= 123 days

= **33%** of 2017

Progression

From June 9, 2017 to September 9, 2017

= 3 months excluding the end date

= 13 weeks

= 25% 2017

Birthing

Depiction of Jupiter as it crosses the threshold of the 'birth canal' of Virgo.

The illustrations accompanying this study attempts to show that the actual 'birthing' of Jupiter, concerning the *Great Virgo Sign* in Heaven from the book of Revelation chapter 12 is prophetic. What makes this *Virgo* motif unique is that Jupiter has never had its 9-month *retrograde* occur when the Sun is 'clothing' *Virgo* and the Moon is at her 'feet'. According to other researchers that have studies this celestial motif, this depiction with Jupiter is a once in a creation event, meaning it has never happened nor will in human history.

This actual 'birthing' of Jupiter as the 'Manchild' will occur on the 9th of September at 0 hours UT time. If there is anything prophetic that will be translated on Earth, that will come about, will remain to be ascertained. However, this study strongly suggests that it could have ramification concerning the dichotomy of the Christ factor and its antithesis, that of the coming AntiChrist in some fashion perhaps.

The Seed of the Woman

The following is the Biblical interpretation by E.W. Bullinger. It is in paraphrase form from this research published in his book, *The Witness of the Stars*. The *Sign Virgo* has to do with the Promised Seed of the woman. Bullinger states that the commencement of all prophecy begins in Genesis 3:15. It is spoken to the serpent, that is Lucifer by the Creator YHVH. *I will put enmity between thee and the Woman, and between thy Seed and her Seed; it shall bruise thy head, and thou shalt bruise His heel.* This is the prophetic announcement which the Revelation in the heavens and in the book is designed to unfold and develop. It lies at the root of all the ancient traditions and mythologies, which are simply the perversion and corruption of primitive truth.

According to Bullinger, *Virgo* is represented a woman with a branch in her right hand, and some ears of corn in her left hand. Thus giving a two-fold testimony of the *Coming One*. The name of this sign in the Hebrew is *Bethulah*, which means a *virgin*, and in the Arabic a *branch*. The two words are connected, as in Latin--*Virgo*, which means a *virgin*; and *virga*, which means a *branch*. Another name is *Sunbul*, Arabic, an ear of corn. In Genesis 3:15 she is presented only as a woman; but in later prophecies her nationality is defined as being of the stock of Israel, the seed of Abraham, the line of David; and, further, she is to be a virgin. There are two prominent prophecies of her and her seed: one is connected with the first coming of Jesus Christ in His incarnation

'Behold, a virgin shall conceive and bear a son, and shall call his name Immanuel.'

The other is connected with His second coming, leaping over the sufferings and this present interval of His rejection, and looking forward to His coming in glory and judgment as stated in Isaiah 9:6- 7

'For unto us a child is born, unto us a son is given; And the government shall be upon His shoulder; And His name shall be called Wonderful, Counsellor, The Mighty God, The Everlasting Father, The Prince of Peace. Of the increase of His government there shall be no end. Upon the throne of David, and upon His kingdom, to order it, and to establish it with judgment and with justice from henceforth even forever. The zeal of the LORD of hosts will perform this.'

According to Bullinger, the prophecy of the Virgin insinuates first a humiliation, together with this long period of His rejection, is leaped over, and the prophecy passes on at once--over at least a period of the *Church Age* to this 'glory which should follow.' In essence during the Time of Jacob's Trouble, Israel will likewise 'travail' until Jesus is 'birthed' in their sight at His 2nd Coming.

The brightest star in *Virgo* has an ancient name, handed down to us in all the star-maps, which is the Hebrew word *Tsemech*. It is called in Arabic *Al Zimach*, which means *the branch*. This star is in the ear of corn which she holds in her left hand. Hence the star has a modern Latin name, which has almost superseded the ancient one, *Spica*, which means, *an ear of corn*. But this hides the great truth revealed by its name *Al Zimach*. It foretold the coming of Him who should bear this name.

The Crown of the King?

Another very unique and amazing mathematical relationship dealing with the position and place the 'birthing' of Jupiter will take place has to do with the *phi ratio*. As in other previous studies in astro-archeology and the *Mazzaroth*, the research shows that each constellation is situated in a perfect *phi ratio* relationship to its design or motif. If it is either an animal or human form or a combination that the stars are depicted in such a way that they are mathematically in relationship to each other. This occurs with Jupiter in the *Great Virgo Sign* of Revelation 12. On September 9, 2017 when Jupiter is 'birthed' as the *Manchild*, Jupiter will be in 2 *phi ratios*. One will be from the head of *Virgo* at the star ν *Vir* to the feet at the star *Syrma*.

The 2nd *phi ratio* will be from the breath of the 'womb' width that is from the star *Heze* to the prominent star of *Virgo*, which is *Spica*. The word *Heze* is associated with the meaning of a harvest and fruit. The signature star of *Spica* or *Al Zimach* is translated as a Messianic title of 'The Branch' or seed that comes forth from the woman. This has a direct connotation to the promise of Paradise of Genesis 3:15 of how the 'Seed of the Women' would crush the head of Lucifer. This is an amazing 'double-witness' that indeed this cosmic alignment and 'birthing' is Biblically prophetic or will be.

Also another amazing observation occurred in the summer months of 2016 around June, Astronomers used the NASA/ESA *Hubble Space Telescope* to study Auroras on Jupiter. This is now capable due to Hubble's ultraviolet capabilities. This coincides with having a particular probe, *Juno* also observing this planet and its various moons. What was very spectacular is the Aurora over the northern pole that is formed from the magnetic field interfacing with various types of gases in the atmosphere affected by the solar winds.

The strong magnetic field of the gas giant grabs charged particles from its surroundings to include its orbiting moons. On Earth the Auroras are likewise caused by solar storms that charges particles and rain down on the upper atmosphere. This process excites the various gases in the atmosphere which causes them to glow in various spectacular colors. This same principle occurs in Jupiter but what is unique about this Jupiter north pole Aurora, is that it doesn't burn out. Thus unlike those on Earth, they never cease. This means that it is a constant and always present although not obvious to the naked-eye. The Aurora is very beautiful and if one were to interject a Biblical narrative of whom and what this planet connotes, it is very telling.

However, many Astronomers observing this one in the north pole are taken-aback at the majesty of this Aurora as being 'dramatic' and as if to signal an arrival of something. As noted, in both Jewish and Christian typology, Jupiter is attributed to being the *Planet of the Messiah* of the Old Testament and the *Manchild* of the New Testament. What is also perhaps just supposition, but if the typology is consistent, the Aurora at the north pole of Jupiter could be likened to a 'Crown'. If it is the 'King Planet', then it needs a 'Crown'. Astonishingly due to the sheer size of Jupiter, this Aurora covers areas bigger than Earth. Not only are the auroras huge in size, they are also hundreds of times more energetic than Auroras on Earth.

Many that study Biblical typologies would also suggest that if in fact the north pole Aurora is a sort of 'Crown' motif, it could have several renditions. One would be the standard crown of a king. The other would be speculative as it could also denote a *Kippah*, a Jewish male head covering. It could also connote the *Crown of Thorns* Jesus Christ was mocked with. Israel as a nation and 'Virgo' type had 'birthed' the Messiah but was rejected of Israel being the true King of Jews. That *Crown of Thorns* was the symbol of Jesus Christ, as the 2nd Adam also taking the curse of Adam, of having the Earth only produce 'thorns' from the sweat of the brow. The redemptive work of the cross by Jesus was to include the restoration of Earth's condition as well. To reiterate, it is also rather amazing that at no other time in human history or recording that Jupiter will be part of the makeup of the *Great Sign in Virgo* in the Fall of 2017.
