

Beginner Punch Needle Workshop

with Simone Vojvodin

Often described as 'instant gratification', punch needle rug hooking is a fun and addictive method of rug hooking. In this workshop, participants will create a small 8" to 10" mat that can be used as a trivet, wall hanging, chair pad, bag or pillow front.

There is something for everyone with nearly 20 different patterns and a gorgeous array of mill run and hand dyed wool yarns to choose from. We'll cover topics such as design, colour planning, how to use a punch needle, plus special tricks and techniques - the instructor will be there to encourage and guide you every step of the way. By the end of class most students should have a solid enough foundation in punching to be confident in making larger rugs and other fabulous projects.
