

Soaring Eagle Press e-Edition

Templeton's "Almost Daily" News

Serving the residents of the greater Templeton area since 2000

Good Evening!

As we make the transition to the online calendar and events bulletin board, I hope that many of you are starting to make use of these Soaring Eagle Press website resources.

The Events page (formally the Bulletin Board) has been updated. There is still a great deal of work to do, but all the events received for April are now online. Please note that in most cases, you'll find the event date and name with a link to click for more information. The link will provide access to a flyer, a press release, or a webpage with all the information for that particular event.

Feedback on this new layout and the way it functions would be greatly appreciated... and of course, if you come across any errors, please bring them to my attention for correction.

Some Reminders:

1. Community
