Looking for beautifully built and correct Appoloosa llamas? We have the perfect 3 in 1 package for you. Appoloosa roots run deep on both of these girls' pedigrees. With GHLC Applesauce being bred to RGA Rocky #278127, we expect another flashy cria sure to catch everyone's attention. The lovely female cria at her side is also sired by RGA Rocky and will be ready to impress in the 2021 show season. Get a whole family and start your own appy parade!
