

Dear Patriots:

This is not going to be a one-day event. This is meant to be a standoff, between American Patriots and those who seek to destroy our Constitution and our Sovereignty. We will be there, as long as it takes...period.

We have 25 Ports of Entry to close, along the US/Mexico border. We are doing this simultaneously, beginning at 8am PST. Specific meeting locations will be arranged, as the day approaches, because of security.

Our goal:

Patriots need to arrive in HUGE vehicles, semis, trucks, RV's, etc. Use your imagination! We need to stop our vehicles as close to the ports (incoming and outgoing) as possible, on the freeway and off of Federal land.

Bring food, water, blankets, sunscreen, signs, chairs, tarps, American Flags, etc. Anything you need to "stick it out".

Our mission is to officially stick this out! We can win this, if our will is stronger than theirs!

One note: Absolutely no abuse of law enforcement personal will be tolerated! No taunting or disrespect, whatsoever! We are fighting for their rights, just as much as ours.

We have the Constitutional right to peacefully protest and assemble. The Constitution does NOT say it has to be in a "1st Amendment Zone"; that goes against the entire premise.

Again, please bear with us. We are individuals, coming together....to Save Our Country and Bring Sgt. Tahmooressi home!

I realize that some of you are frightened of what "might" happen. Truth is, anything can happen. Be mentally prepared for that. This is not a fight for the weak minded or weak hearted. This is a fight that true Patriots feel strongly about! It's time our Government remembers that they work for the American People and the will of the American People is strong!

We are uniting under our 10 Goals. That's it. Keep it simple. I realize there are many things wrong with our Nation that must be addressed. We are starting with our Sovereignty and working inwards.

If you have any questions, please feel free to ask. Any suggestions? They are all welcomed! Just remember to be courteous and respectful.

As for each of the ports.... we need volunteers to head up each port. California has two ports covered (San Ysidro and Otay Mesa) and Texas has a few covered (edit in a few). If you are interested, please PM Barbie or me (Stasyi) to request an entry point. As Barbie mentioned before, this is not a light assignment. You will be the main contact person for that area and are responsible for all in attendance.

Sign-ups for each port are coming soon. That way, we know how to spread our resources and you know where you are most needed.

I will continue to give updates, as the need arises.

Take care and thank you for your patience.

May God Bless America and the citizens that stand in defense of her!
