PRODUCT SPECIFICATION SHEET

12mil LDPE

General Description: High density polyethylene woven fabric base complete with a low density coating.

		TEST METHOD
Product Number:	TI-P1080HD	
Denier of Tapes:	1600 D / Black	
Construction: (tapes/inch)	warp 10 / weft 8	
Coating:	2 mil both sides	
Weight:	6.1 oz	
Tensile Grab Strength:	160 / 200	ASTM-D-1682
Grab Tear:	warp 65 / weft 55	ASTM-D-751-79
Burst:	390	
Thickness: (overall)	11 mil	
Standard Width:	12 ft.	
Standard Color:	Silver / Black	
Weatherability:	Special UVI treatment gives 80% strength retention after 2000 hours on weatherometer. ASTM 653 A 1600 denier reflective product complete with Black tapes and UVI treatment on the Silver side for long outdoor life. Black coating inhibits ultra-violet light penetration giving longer life. Black tapes decrease sunlight deterioration.
