- Strengths: Dr. Lively is always willing to take the time to help students individually. He always makes an effort to make the class fun. Weaknesses: Piano tests for this class should be more in-line with Piano class.
- The piano components of the course were only tested, never covered in class. As a minor in music, I don't take the piano course, so I had to learn the piano segments of the test without any keyboard instruction. I believe that the keyboard requirements of this class should be covered in at least some way before they are tested.
- Gets off track too easily and overall is not a good teacher
- N/A
- Dr. Lively is the best! He was always, always willing to help students no matter what. He is very patient and always encouraging. I'm so glad he taught this class!
- Dr. Lively is a great teacher

Response Rate 5/14 (35.71%)

- a. I learned how to further analyze music of the common practice period. b. This class allowed me to keep an open mind while analyzing music and see how to analyze it from multiple perspectives.
- This guy knows a thing or two about cheese burgers. ~Jonathan Hodges
- a. I learned how to critically analyze the form of music so as to better understand it b. As an artist it helps me better understand the music I am learning and better replicate the composer's intentions for using specific forms
- a. I have learned important form concepts, as well as how they relate to each other b. I like how we can pick pieces for our final, rather than having an assignment; I have always picked pieces for Professor's Lively's classes in which I am studying, which bleeds over into my solo performances and gives me a better understanding of those pieces.
- A. learned how each composer had a different form and style to composition. From Mozart to Beethoven and even schoenberg.This class taught me how to analyze the structure of music as a whole not just a theoretical roman numeral analysis but to see how things were structured. b. This made me think of how I would like to formulate my own compositions. It isn't just knowing the key and writing awesome melodies but in fact a justification of how to really compose as a whole.

- He's a great professor, and he makes good jokes in class. He always helps students when they need it. Tests, quizzes, and assignments were always very straightforward. No curveballs were thrown at us. We were tested on what we were taught, and our grades reflected our ability to comprehend the material.
- Dr. Lively is fantastic at teaching concepts super clearly and then having us apply them ourselves. This was a great class! Wouldn't change a thing
- Course was great, very easy to learn and comprehend. Wish we talked about food more though, hopefully we will next semester in the contemporary music class! Thank you and have an amazing Christmas Dr.Lively!
