Our Story

While growing up in the rural areas of Georgia, farming and canning became a way of life for Robert and Patsy Mitcham Sr. During High school, Robert was active in agriculture and Future Farmers of America. He helped run a canning plant at his school and later became an agriculture teacher and ran the local canning plant for Rabun County.

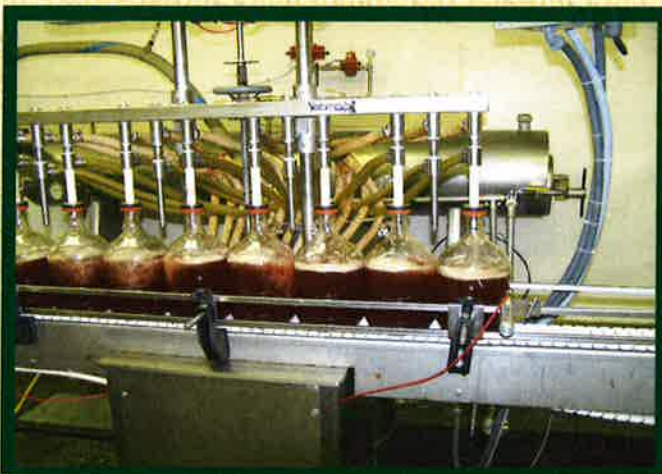

Overhead shot of production facility and orchard

A small jelly kitchen was built in the backyard of the Mitcham's North Georgia home in 1983. It all began with 10 products including; strawberry jam, apple butter and the bread and butter pickles made from that crop of cucumbers. From that small jelly kitchen Hillside Orchard Farms has grown into a major company producing over 600 products that ship all over the United States, The Bahamas, Bermuda, The Caymen Islands, and Canada.

Three generations of the Mitcham family now run the operations of Hillside Orchard Farms. We specialize in private labeling of product, contract packaging value added packaging and all of our products are available for wholesale. We also have a retail country store where you can buy our products or at our mail order store on the web.

Automated cider line filling bottles

A lot has changed over the years but we still hold on to the values and quality that got us started. We now run a fully modern, fully licensed, FDA and The Georgia Department of Agriculture regulated plant. But, with one taste, you will agree that the homemade goodness is still there. We know your customers will be happy with our products and will return for more again and again. Whether it has your name on it, or ours, the quality is guaranteed.

Our Quality Pledge

Hillside Orchard Farms is a family owned business and since our beginning in 1983 has built a reputation on providing quality products and services.

Honey and Sorghum

12 oz. Honey Bear

What kitchen would be complete without old fashioned sorghum syrup and honey? Our sorghum is made from locally grown sorghum cane that is cooked in an open copper syrup pan. Our syrup is made just like Grandpa used to do it. Our honey comes from our bees. It is harvested with care and processed to be some of the best around. You can't go wrong with either one.

A Day At The Farm

If you are in the neighborhood, we would like to invite you to come spend a day with us at the farm. Our retail store and farm is rapidly becoming a destination point for tourists and families.

You can spend the day in the barnyard feeding the goats and meeting our many rabbits, pigs, chickens, turkeys, and donkeys. Minor Jim is in our mine, where you can look for gems and fossils. Take a stroll and have a picnic around the walking path by the creek, shop in the country store and gift barn, or just simply sit on the front porch and enjoy a bowl of peach ice cream and an apple fritter.

In the spring and in the fall we celebrate Old Fashioned Farm Days. These festivals include live bluegrass music, crafters, hay rides and a special sale at The Country Store. In the fall we also have our corn maze open daily and have a abundance of pumpkins so that you can find that perfect one. You can see a copper sorghum syrup pan, an ethanol distillery, and a saw mill. In 2010, we added a honey operation where we build hives, extract and bottle honey. See them working on our festival days and by appointment when you visit us.

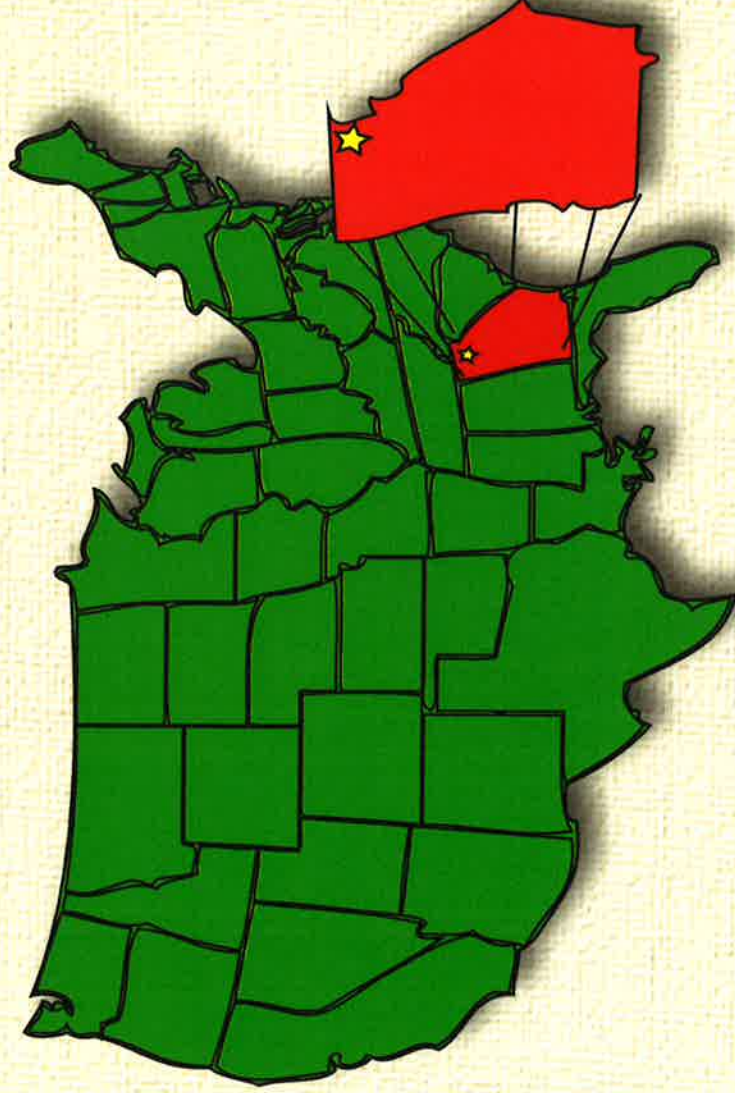

We are located at the corner of Worley Creek Road and Historic 441 in Lakemont, Georgia. Please call for directions or questions. 706-782-2776 or call toll free 866-782-4995.
