

Injury prevention Committee 9/28/17

Emily Loertscher

Liz Kracht

- Farm safety
  - Emily's intern has the program all put together and has partners that interested in having a booth and have a location ready. We just need to implement the program
  - The thought was to try the program to see if there would be any adjustments that would need to be done, and then put a tool kit together for other areas to do the program
  - We thought it would be a good idea to present this topic to the whole group to see if anyone else would be willing to help out with it. The hope is to implement the program in the spring or summer.
  - We are not calling the program "farm Safety" because we want kids/adults that may already live on a farm to come as well
- ATV Safety
  - Possible topic for the next fiscal year
  - Talked about involving the DNR with education on ATV safety
  - Emily went to a conference and saw an ATV robot named Safety Sam that might be a good addition in delivering the ATV safety education
  - [www.playforkate.com](http://www.playforkate.com) for more information on Safety Sam and how he came to be
  - We would also like to talk about this with the big group to gauge what the interest would be
