

# *Gothic Bunny Cowl*

2019 Wine Country Yarn Hop pattern  
from Purls of Joy

A sampler of sorts, this cowl was designed to try new stitches and add a bit of lace to lighten up a favorite accessory. Knit in the round, it can be made in any weight by adjusting needle sizes and stitch count. It's also a great use of those mini skeins or even scraps.

Examples shown are two different weights – the grey and pink is sport weight and the teal/multi is fingering or sock weight. Gauge isn't important, but you will find some measurements listed for guidance.

**Notes:** The Gothic Bunny Cowl is comprised alternating garter ridge and lace patterns.

Beginning and ending garter ridge sections are 6 rounds total, other garter sections are four rounds. All lace sections have a knit round before and after the pattern to help delineate the lace. Main color is used for the garter ridge sections only. All lace sections can be one color or a different color each time. The marker remains in the project until it's finished, just slip it as you come to it each round.
