This issue of *Education News* contains descriptions and rates for many of the educational programs we have to offer. From home-school to public school, we have something for you.

Bring the Museum to Your Classroom!

Starting this school year, the Museum is offering in-school presentations and activities.

Students can learn about the turpentine industry, Native American life, pioneer life, and Paleontology without leaving the classroom.

Lecture Topics:

Native Americans of Northwest Florida
The Life of a Pioneer
Dino Bones

Activities:

Pinch Pots
Butter Churning

Rates:

\$50 per half hour of lecture
\$3 per student participating in the activity

The turpentine presentation is recommended for grades 4-12.

Pinch Pots and Butter Churning best supplement the Native American and Pioneer presentations, but can be booked with any presentation.
