An example of the interior of our warehouses.

Our mission is to provide a complete rail-transfer, warehousing, and distribution service for the Imperial and Mexicali Valleys.

Our **vision** is to be recognized as the leading loading facility in the Imperial and Mexicali Valleys.

Our **core values** are to **NOT** compromise the integrity of security and safety for profits.

IMPERIAL RAILPORT

Rail Trans Loading and Warehouse Distribution

About Us

Imperial Railport was formed in 1997 and began rail transloading, warehousing, and distribution operations in early 2015.

During those 18 years, we established a long-term relationship with the **Union Pacific Railroad**, allowing us to serve the need for our services in the Imperial and Mexicali Valley area.

We offer a wide variety of services and are able to handle many commodities.

Steel, an example of the type of materials we can handle.

Our Location

Located on the Union Pacific Railroad, our property encompasses a total of 117 acres of warehouses and paved parking which allows us to serve our clients' needs for many products.

This location is also a **Foreign Trade Zone (FTZ)** that is currently in the process of being activated. Being located in a FTZ comes with benefits to exporters such as:

- **Duty Exemption** - No duties on or quota charges on re-exports.

- **Duty Deferral** - Duties and federal excise tax deferred on imports.

- **Inverted Tariff** – Manufacturing in FTZ can result in finished product with lower duty rate than the rate on foreign input.
