

**70th
SHORT COURSES
FOR
WATER & WASTEWATER OPERATORS
June 2th– June 7, 2019**

Attention Vendors, Suppliers, and Consulting Firms!

This year marks the 70th Water and Wastewater Operators Short Course. Here is your chance to become part of the 2019 Annual Short Course for Water and Wastewater Operators and Superintendents to be held at Mount Saint Mary's University in Emmitsburg, MD during the week of June 2 - June 7, 2019.

The Short Course has provided excellent training at a minimal cost for the past 70 years. Our brochure is available to members of AWWA, WWOA, and CWEA organizations. In addition, over 250 persons attended (operators, superintendents, maintenance personnel, vendors, and instructors) last year's Short Course.

The costs associated with running a weeklong training program have become quite large. The Short Course staff has been able to obtain some spaces at the college to allow vendors to set up a small area during class time. We will have a 6' tables available and will set up in the main break area. Classes take hourly breaks which provide the students an opportunity to visit you and your product/service. We can accommodate several vendors per day and the cost is only \$250.00 for the entire day (8am-5pm). We will provide lunch at our cost, and your money will go towards payment of the Administrative/service costs.

Don't wait, call today! Registration will be available on our website after April 1st at www.WWOShortCourses.org or you may contact Clark Howells by email at clark.howells@baltimorecity.gov to reserve space. For mail in registration please make checks payable to, WWO Short Course, send to: Short Course Coordinator, 18514 Prettyboy Dam Road, Parkton, MD 21120 Attn: Clark Howells.

Thank you for your support and we look forward to seeing you all at the 70th Annual Water and Wastewater Operators Short Course!
