

3 PHASE ISOLATION TRANSFORMERS

Three Phase: 100VA - 1000kVA
Input Voltages: 200VAC - 3300VAC
Output Voltages: 100VAC - 3300VAC
Frequency: 50Hz/60Hz
Insulation: Class F (155°C) (Class H 180°C optional)
Vector Displacement: Dyn11 Standard (Others also available)
Enclosure Protection: IP22 Standard (Others also available)
Enclosure Finishes: Powder Coated, Stainless Steel

Options: Primary and secondary multiple windings
 ± Primary Tappings
 Earth Shield
 Enclosures IP65 and Stainless Steel
 Primary and secondary circuit breakers
 Custom mounting brackets
 Custom enclosures can be made available
 Mains leads on enclosed units
 Output distribution boards

Features: Designed and manufactured in Australia
 Minimal maintenance and maximum reliability
 Conservative design for low heat rise
 A full range of IP22 enclosures are available
