

# Natural Resource Consulting, Inc.

---

## COMPANY PROFILE

### Company Mission

It is Natural Resource Consulting, Inc.'s (NRC) mission to provide professional services in the field of Natural Resource Management. Such services entail providing information pertaining to, and guidance for, the proper planning and management of natural resources. It is our commitment to utilize leading technology and information to provide a high quality product for our customer.

We believe we have two responsibilities. One is to our customers and the other is to the community. Our responsibility to our customers includes adapting to their specific needs and assuring that these needs are satisfied. Our responsibility to the community involves being good stewards of the natural resources, which surround us.

### Company Background

NRC was started on October 1, 1989 in Montgomery, Alabama and incorporated on August 19, 1992. NRC brings a unique approach in providing professional services to the private and public sectors. NRC focuses and specializes on the importance of resource management. Using advance information systems, NRC is able to provide both their urban and rural clientele with accurate and timely information.
