WHO WE FLY

“ *Apollo Jets* goes above and beyond in helping with my travel needs. Their service, flexibility, comfort and luxurious style distinguish them from the competition and make them my go to option for flying. **”**

DEREK JETER, Five-Time World Series Champion

“ *Apollo Jets* has contributed to my success on and off the court, I can travel on my own time in complete comfort and safety, knowing that I will arrive relaxed, focused and ready to work or play. **”**

SHAQUILLE O'NEAL, NBA Champion

AIRCRAFT

LIGHT JETS

BEECHJET | HAWKER | CITATION
LEAR | PREMIER | PHENOM

An exceptionally smooth ride with the luxury of a quite engine. These jets are the most economical choice for short to mid-range flights.

*Average cruising speed of 400-560 MPH
Capacity to hold up to 7 passengers*

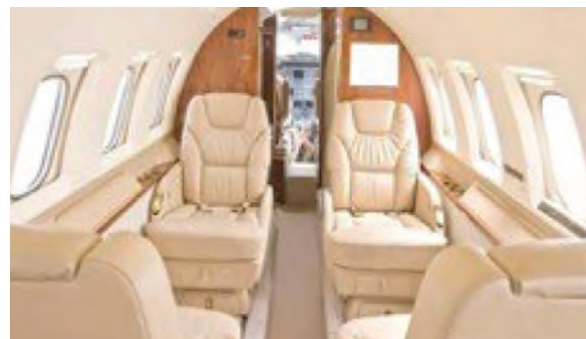

MID-SIZE JETS

CITATION | PHENOM | GULFSTREAM
HAWKER | LEAR

The most versatile of the fleet. Provides the interior comfort of the larger aircraft and the agility of the smaller models.

*Average cruising speed of 510-590 MPH
Capacity to hold up to 8 passengers*

AIRCRAFT

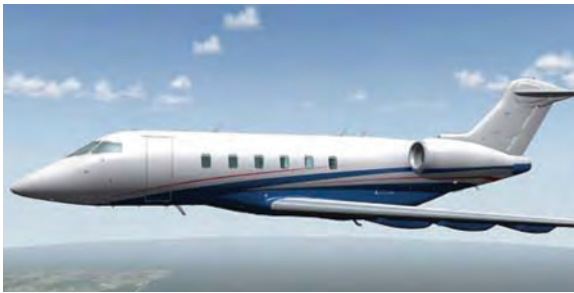

SUPER MID-SIZE JETS

CITATION | CHALLENGER
GULFSTREAM | FALCON HAWKER

Masterful aircraft for coast to coast travel.

Average cruising speed of 480-610 MPH

Capacity to hold up to 9 passengers

HEAVY JETS

GULFSTREAM | FALCON | LEGACY
CHALLENGER | GLOBAL EXPRESS

Heavy Jets are known for their spacious and luxurious interiors.

Average cruising speed of 450-505 MPH

Capacity to hold up to 17 passengers

AIRCRAFT

HELICOPTERS

BELL | SIKORSKY | BOEING
AIRBUS

A versatile air travel option that allows ultimate accessibility.

*Average cruising speed of 150-194 MPH
Capacity to hold up to 6 passengers*

TURBO PROPS

CESSNA | KING AIR | PILATUS
PIAGGIO

Combines the use of twin propellers and a turbine engine. Most efficient aircraft for short service flights.

*Average cruising speed of 150-200 MPH
Capacity to hold up to 9 passengers*
