TRIAD is... a COUNTY

agreement between the Sheriff's Office, municipal Police Departments, and senior adults in the community to work together in an effort to prevent seniors from becoming victims of crime.

TRIAD is... a COUNTY

joint approach to crime issues that affect older citizens. It is, essentially, a specialized delivery of law enforcement services and current crime information to our community's seniors.

TRIAD is...

accomplished by working to form S.A.L.T. (Seniors And Law Enforcement Together) Councils, which plan, carry out, and attend TRIAD COUNTY activities.
