NCC Reflection POS Embedded POS Touch Screen Terminal

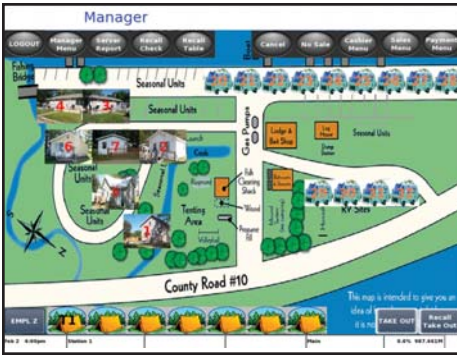

Powered With Intel Atom Dual-Core Processor To Run More Demanding Applications

NCC Reflection POS is powered by the most feature-rich software of any product in its class. This system is designed for a wide variety of restaurant concepts including Quick Service, Casual Dining, Fine Dining, Pizza Delivery, Bars and Nightclubs. Reflection POS has the functionality to meet the demands of most restaurant operations and features an embedded operating system that eliminates the risk of software viruses and spyware.

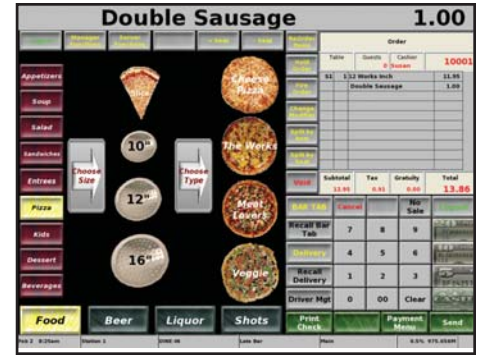

- 15" LCD with 5-Wire Resistive Touch
- Intel® Atom™ Dual Core 1.86GHz **Fanless** Processor
- Self-Healing, Fully Data-Redundant Network
- Integrated Credit Card / PIN Debit / Gift Card Processing
- Easily Wall Mountable
- Excellent Cable Management

NO Windows NO Fan NO HDD NO Spyware NO Headache

Customized graphical table maps.

Graphic screens guide operators with minimal training.

NCC Reflection POS Embedded

NCC Reflection POS is the most feature-rich software of any product in its class. This system is designed for a wide variety of restaurant concepts including casual dining, fine dining, pizza delivery, bars and nightclubs. Reflection POS has the functionality to meet the demands of any restaurant operation and features an embedded operating system that eliminates the risk of software viruses and spyware. You can rest assured that Reflection POS will be ready to perform when you need it. NCC Reflection POS has the features necessary to effectively and efficiently run restaurants from the small quick service concept up to the large full service table service establishments. Flexibility and reliability are two key aspects of the NCC Reflection POS solution that makes it suitable in a variety of different foodservice concepts.

No Single Point of Failure

NCC Reflection POS is equipped with the most sophisticated, terminal-redundant network on the market. Using the integrated high-speed Ethernet, all system information is replicated on every terminal across the TCP/IP network. If a terminal is removed from the LAN, all information is automatically synchronized when the terminal re-enters the network.

Quick Service

NCC Reflection POS is equipped to handle all sizes of quick service operations. It possesses all operational and management functionality that are key to running an efficient QSR operation.

- Auto-Meal Combination Recognition
- Coin Changer Support
- Kitchen Video Support
- Assign Customer Phone Number for To-Go Orders
- Dual Drive-Thru Modes
- Drive-Thru Order Confirmation Board Support
- Inventory Control Including Recipes and Cost Analysis
- Order Confirmation Board and Coin Changer Interfaces

Table Service

NCC Reflection POS can be easily designed to allow for the various styles of restaurant concepts. From the start of the order process, the various transitions that a guest check can be subjected to are handled quickly and efficiently. Whether in a cashier style operation or full service using a banked wait staff concept, NCC Reflection POS has all of the necessary management control and report tracking to provide an accurate view of the days business.

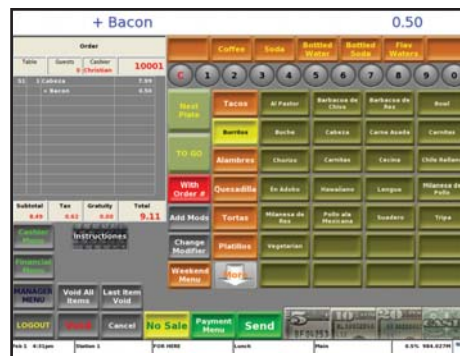

- Table and Retained Check Tracking
- Graphical Table Map
- Integrated Credit Authorization Option
- Server Banking and Cashier Operations
- Auto Gratuity
- Inclusive Tax Items
- Liquor Dispenser Support
- Assign Names to Bar Tabs
- Priority Sorting for Kitchen Printers
- Custom Kitchen Messages
- Separate Check Functionality by Item, Seat, or Dollar Amount
- Split an Item Up to 9 Ways
- Combine Check Function
- Server Transfer, One or All Checks
- Check Recall By Bar Code Scanner

Online Ordering and Delivery Operations

The NCC Reflection POS delivery module will allow guest checks to be created and assigned to customers for delivery. NCC Reflection POS can maintain a customer file of 9,999 entries which can be accessed and sorted by customer ID number, phone number, address, first and last name or by city. NCC Reflection POS can create and store new customers on the fly during a first time purchase. When used with PC WorkStation NCC Reflection, POS can automatically retrieve order history allowing for fast and accurate order entry. Guest checks created for delivery are managed by the driver dispatch functions where accountability for delivery orders are assigned to drivers.

- 9,999 Customer File
- Sort By ID, Phone, Address, First and Last Name or By City
- Automatically Searches By Sort Option
- Create New Customers On the Fly
- Delivery Notes for Each Customer
- Retrieve Order History (Requires PC Workstation)
- Fast and Accurate Order Entry
- Select All Items or Tag Item to Current Check

SPT-4700 NCC Reflection POS Embedded POS Terminal

Menu items, condiments, flavors, instructions and options can be placed upon one key. When an item is registered, a specific key displays the options available for the item. You can control how many choices can be made as well as what options display next.

- Personalized Service
- Assign Delivery Order to Available Drivers
- Displays a List of Employees Clocked In with Job Code "Driver"
- Displays Assigned Checks
- Dispatch Drivers
- Displays Status of Drivers (Ready or En Route)
- Arrange Tickets for Desired Delivery Route
- Checks Totals Posted to Driver for Accountability

Programming

With NCC Reflection POS, no back office PC is required to make changes or additions to the system tables. All menu item, employee, screen design, etc., changes may be performed directly on the POS terminal in an easy to use programming mode using an on screen touch keyboard. Changes are accomplished easily and are immediately available to all stations in the POS system.

Extensive Reporting

NCC Reflection POS has a wide range of real time reports. Reports can be obtained locally at each station or on the back room PC if equipped with the optional PC Workstation software. Report data can also be exported and communicated via FTP push or poll methods for use with other reporting solutions. Detailed information can be obtained by station, system, revenue center, user and many more.

Inventory

An integrated inventory system accurately tracks product and ingredient usage by way of recipe definitions and product mix information. Item count down feature can signal the wait staff that a particular product is no longer available, while inventory reports provide usage details and food cost information.

Built in Time Clock

Using the available time clock feature, NCC Reflection POS will help managers capture the valuable information necessary to control labor costs. Employee clock in/out procedures can either be performed by numeric entry, magnetic card or digital I-Button. Security levels assigned by job codes provide the controls necessary to access POS functions. Detailed time clock reports will provide employee punch time data with accumulated pay period totals, as well as additional reports to provide critical labor to sales information.

- L** COM3 (Powered)
- M** VGA
- N** COM4 (Powered LCD)
- O** DC Out (For Rear)
- P** DC In (Power)

Hardware Specifications

Processor:	Intel Atom D2550 1.86GHz (Cedarview)
FSB (Front Side Bus):	1333 MHz
Socket Type:	BGA
Display LCD:	15" LCD
Resolution:	1024 x 768
Brightness:	Adjustable Up to 250 cd/m2
Integrated Speakers:	Integrated 2 Watt Speakers
Chipset:	NM10
Touch Panel:	ELO 5-Wire Resistive Touch
MCR:	Integrated Triple Track MCR
RAM Memory:	2GB DDR3 800 SODIMM Expandable To 4GB (2 Slots)
Video Memory:	Shared Memory Up To 256MB For Primary LCD
Compact Flash Disk:	Type II Compact Flash Card Slot
Serial Ports:	COM1, COM2, COM4 = DB9M With Pin 9 Voltage (0V/+5V/+12V) Selectable By BIOS / COM3 = RJ45 Pin 1 Voltage (0V/+5V/+12V) Selectable By Jumper / COM5 for Touchscreen / COM6 = RJ45 for VFD
Parallel Port:	One DB25F
USB Ports:	6 V2.0 (2 Left Side / 4 Bottom)
Cash Drawer Port:	RJ11, 12V DC or 24V DC Selectable By Switch (Maximum 2 Drawers – Supports Open/Close)
Keyboard / Mouse Port:	Not Applicable (Use USB Ports)
LAN Port:	RJ45 10/100/1000 Base-T (Giga LAN) RealTek RTL8111DL
VGA Port:	One DB15F Display Port For Second LCD (Maximum Resolution 2048 x 1536)
Audio Port:	One Line-In / One Line-Out
Mic Port:	One Mic-In
Power Supply:	60W, 12V/5A External Power Adaptor 100-240V 50-60Hz
Current / Power Usage:	0.37A / 45W
Operating Temperature:	32° F to 95° F (0° C to 35° C)
Dimensions – Base:	11"W x 7-3/8"H x 8-5/8"D
Overall:	13-13/16"W x 12-1/8"H x 8-5/8"D
Shipping Carton:	20-1/4"W x 13"H x 16"D
Weight – Product:	12.9 lbs.
Shipping:	17.5 lbs.
Safety and EMI:	FCC, RoHS
